Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style *Multicampus University Systems* Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities **Kenya National Assembly Official Record (Hansard)** ,1996-04-23 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Kenya National Assembly Official Record (Hansard)** ,1996-04-23 The official records of the proceedings of the Legislative

*Context* Kristen A. Renn, 2014-10-13 A pathbreaking study of the critical role women's institutions play in global higher education Educating girls and women is a powerful route to improving societies worldwide When women receive more education literacy rates in children rise maternal and infant death rates drop and women enjoy an increased earning capacity Yet in parts of the developing world women's education is considered a low priority at best and a dangerous countercultural activity at worst In Europe and North America the number of women's colleges is shrinking yet women only institutions are growing in size and number in many other regions of the world where they provide access to female students who are prevented for legal cultural religious or practical reasons from attending coeducational universities *Women's Colleges and Universities in a Global Context* is the first book to provide a comprehensive comparative analysis of the increasing significance of single sex higher education institutions for women around the world Based on Kristen A Renn's on site study of thirteen women's colleges and universities in ten different countries Australia Canada China India Italy Japan Kenya South Korea the United Arab Emirates and the United Kingdom this timely and provocative volume combines interviews of campus leaders faculty and students with extensive online and archival research Renn provides an overview of each country's political economic and educational situation then explores the theoretical and practical themes she uncovers in their educational institutions for women In the end this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that would benefit higher education worldwide

**Postgraduate Research Engagement in Low Resource Settings** Atibuni, Dennis Zami, 2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike *Postgraduate Research Engagement in Low Resource Settings* sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students
