

Activities for Tutoring a Pre-literate Student

The most important thing you can do to help a pre-literate student is to make reading **meaningful**. What matters to your student?

Language develops more quickly and deeply if students get a chance to talk about things that matter to them.

—Heide Spruck Wrigley

Vocabulary

Show me/Point to

Use props or picture cards. Ask the student to point to various items. This is easier than naming them.

What's in the hat/bag?

Put props or picture cards in an opaque bag. The student takes them out, one at a time, and names each one.

Verbal Fill in the Blank

Give the student a sentence starter and ask the student to fill in the sentence with all the vocabulary words that he/she remembers. For example, "I am wearing ____"

Total Physical Response (TPR)

The idea behind TPR is to associate physical movement with language. First select a set of actions and language to go with them. Most likely, the language will be in command form. For example: *Get out your paper. Pick up your pencil. Put down your pencil. Put away your paper.* Here are the steps to follow:

1. Demonstrate the actions and say the language as you demonstrate (don't say anything other than the commands)
2. Repeat step one a couple more times
3. Say the language as the student performs the actions with you
4. Repeat step three a couple more times
5. Mix up the order of the actions to check comprehension
6. The Student can give the commands or to you (optional)

Miming actions with imaginary objects and picture cues is also an option.

Literacy has traditionally been associated with the linguistic and functional ability to read and write. Although literacy as a fundamental issue in education has received abundant attention in the last few decades, most publications to date have focused on monolingual classrooms. Language teacher educators have a responsibility to prepare teachers to be culturally responsive and flexible so they can adapt to the range of settings and variety of learners they will encounter in their careers while also bravely questioning the assumptions they are encountering about multilingual literacy development and instruction. The *Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms* is an essential scholarly publication that explores the multifaceted nature of literacy development across the lifespan in a range of multilingual contexts. Recognizing that literacy instruction in contemporary language classrooms serving diverse student populations must go beyond developing reading and writing abilities, this book sets out to explore a wide range of literacy dimensions. It offers unique perspectives through a critical reflection on issues related to power, ownership, identity, and the social construction of literacy in multilingual societies. As a resource for use in language teacher preparation programs globally, this book will provide a range of theoretical and practical perspectives while creating space for pre- and in-service teachers to grapple with the ideas in light of their respective contexts. The book will also provide valuable insights to instructional designers, curriculum developers, linguists, professionals, academicians, administrators, researchers, and students.
