Essay On Newspaper:

An Essay on the Influence of Authority in Matters of Opinion George Cornewall Lewis, 1849 *A Newspaper for China?* Barbara Mittler, 2020-03-23 In 1872 in the treaty port of Shanghai British merchant Ernest Major founded one of the longest lived and most successful of modern Chinese language newspapers the Shenbao His publication quickly became a leading newspaper in China and won praise as a department store of news a forum for intellectual discussion and moral challenge and an independent mouthpiece of the public voice Located in the International Settlement of Shanghai it was free of government regulation Paradoxically in a country where the government monopolized the public sphere it became one of the world's most independent newspapers As a private venture the Shenbao was free of the ideologies that constrained missionary papers published in China during the nineteenth century But it also lacked the subsidies that allowed these papers to survive without a large readership As a purely commercial venture the foreign managed Shenbao depended on the acceptance of educated Chinese who would write for it read it and buy it This book sets out to analyze how the managers of the Shenbao made their alien product acceptable to Chinese readers and how foreign style newspapers became alternative modes of communication acknowledged as a powerful part of the Chinese public sphere within a few years In short it describes how the foreign Shenbao became a newspaper for China

Popular Newspapers, the Labour Party and British Politics

James Thomas, 2007-05-07 IT'S THE SUN WOT WON IT was the famous headline claim of Britain's most popular newspaper following the Conservative party's victory over Labour in the 1992 general election The headline referred to a virulent press campaign against Neil Kinnock's Labour party and dramatically highlighted one of the chief features of British politics during the twentieth century the conflict between a socialist Labour party and a capitalist popular press Labour's frequent complaints of the political and electoral unfairness of newspaper bias meant that some commentators considered that this dispute had a heritage as old as the party itself Others including the Labour leadership at the time argued that despite past tensions the 1992 election marked the culmination of an unprecedented campaign of vilification against the party Popular Newspapers the Labour Party and British Politics assesses these competing claims looking not only at 1992 but both back and forward to examine the continuities and changes in newspaper coverage of British politics and the Labour party over the twentieth century The book explores whether the popular press has lived up to its claim of being a democratic fourth estate or has merely as Labour politicians have argued been a powerful fifth column distorting the democratic process Drawing on a range of previously unexamined sources this book offers the first original and comprehensive history of a fascinating aspect of British politics from Beaverbrook to Blair James Thomas is a lecturer at the Cardiff School of Journalism Media and Cultural Studies at Cardiff University and has published articles and essays exploring the relationship between the popular press and British politics
