**Health Inequality** Mel Bartley,Michelle Kelly-Irving,2024-11-06 The persistence of stark health inequalities in today s world is painfully clear to see not least in the effects of the Covid 19 pandemic and falling life expectancy in many parts of the world How can we advance our understanding of the full extent of health inequality what drives it and ways to address it The third edition of this popular book closely examines the influence of social class gender and race ethnicity among other issues on health in the light of broad macro political contexts The classic behavioural psychosocial and material approaches to health and their embodiment within a life course perspective are introduced but importantly are also re situated within the growing understanding of the commercial and political determinants of health Bartley and Kelly Irving draw on extensive new evidence that shows how the chances for everyone to lead a long and healthy life depend on where power lies to control health damaging policies and introduce health promoting ones Health Inequality will continue to be essential reading for students taking courses in the sociology of health and illness social policy and welfare health sciences public health and epidemiology and all those interested in understanding the consequences of social inequality for health

*Counterintelligence Theory and Practice*

Hank Prunckun, 2019-01-21 This book provides all of the elements required for a successful counterintelligence operation from both an academic and a practitioner's point of view. It offers an advanced understanding of the underlying theory and examines the challenges and practicalities of defensive and offensive counterintelligence. *Debating Modern Medical Technologies*

Karen J. Maschke, Michael K. Gusmano, 2018-09-14 This book analyzes policy fights about what counts as good evidence of safety and effectiveness when it comes to new health care technologies in the United States and what political decisions mean for patients and doctors. Medical technologies often promise to extend and improve quality of life but come with many questions: Are they safe and effective? Are they worth the cost? When should they be allowed on the market and when should Medicare, Medicaid, and private insurance companies be required to pay for drugs, devices, and diagnostic tests? Using case studies of disputes about the value of mammography screening, genetic testing for disease risk, brain imaging technologies to detect biomarkers associated with Alzheimer's disease, cell-based therapies, and new expensive drugs, Maschke and Gusmano illustrate how scientific disagreements about what counts as good evidence of safety and effectiveness are often swept up in partisan fights over health care reform and battles among insurance and health care companies, physicians, and patient advocates. *Debating Modern Medical Technologies: The Politics of Safety, Effectiveness, and Patient Access* reveals stakeholders differing values and interests regarding patient choice, physician autonomy, risk assessment, government intervention in medicine, and technology assessment and scientific innovation as a driver of national and global economies. It will help readers to understand the nature and complexity of past and current policy disagreements and their effects on patients. *A Continuous Struggle*

Garrett Felber, 2025-05-06 The first biography of the revolutionary political prisoner who laid the foundation for contemporary abolitionist struggles and Black anarchism. *A Continuous Struggle* is a political biography of one of the most important revolutionary figures of the twentieth century in the United States. Martin Sostre (1923–2015) was a Black Puerto Rican from East Harlem who became a politicized prisoner and jailhouse lawyer, winning cases in the early 1960s that helped secure the constitutional rights of incarcerated people. He opened one of the country's first radical Black bookstores and was scapegoated and framed by police and the FBI following the Buffalo rebellion of 1967. He was sentenced by an all-white jury to thirty-one to forty-one years. Throughout his nine-year imprisonment, Sostre transformed himself and the revolutionary movements he was a part of, eventually identifying as a revolutionary anarchist and laying the foundation for contemporary Black anarchism. During that time, he engaged in principled resistance to strip frisks for which he was beaten eleven times, raising awareness about the routinized sexual assault of imprisoned people. The decade-long Free Martin Sostre movement was one of the greatest and most improbable defense campaign victories of the Black Power era, alongside those to liberate Angela Davis and Huey Newton. Although Sostre receded from public view after his release in 1976, he lived another four decades of committed struggle as a tenant organizer and youth mentor in New York and New Jersey. Throughout his long life, Martin Sostre was a jailhouse lawyer.

revolutionary bookseller yogi mentor and teacher anti rape organizer housing justice activist and original political thinker The variety of strategies he used and terrains on which he struggled emphasize the necessity and possibility of multi faceted and continuous struggle against all forms of oppression in pursuit of an egalitarian society founded on the principles of maximum human freedom spirituality and love

**Assessing Contexts of Learning** Susanne Kuger,Eckhard Klieme,Nina Jude,David Kaplan,2016-12-05 This volume brings together educational effectiveness research and international large scale assessments demonstrating how the two fields can be applied to inspire and improve each other and providing readers direct links to instruments that cover a broad range of topics and have been shown to work in more than 70 countries The book s initial chapters introduce and summarize recent discussions and developments in the conceptualization implementation and evaluation of international large scale context assessments and provide an outlook on possible future developments Subsequently three thematic sections Student Background Outcomes of Education Beyond Achievement and Learning in Schools each present a series of chapters that provide the conceptual background for a wide range of important topics in education research policy and practice Each chapter defines a conceptual framework that relates recent findings in the educational effectiveness research literature to current issues in education policy and practice These frameworks were used to develop interesting and relevant indicators that may be used for meaningful reporting from international assessments other cross cultural research or national studies Using the example of one particular survey the Programme for International Student Assessment PISA 2015 this volume links all theoretical considerations to fully developed questionnaire material that was field trailed and evaluated in questionnaires for students and their parents as well as teachers and principals in their schools The primary purposes of this book are to inform readers about how education effectiveness research and international large scale assessments are already interacting to inform research and policymaking to identify areas where a closer collaboration of both fields or input from other areas could further improve this work to provide sound theoretical frameworks for future work in both fields and finally to relate these theoretical debates to currently available and evaluated material for future context assessments
