The Taming of Education Rob Creasy,2017-08-24 This book evaluates contemporary approaches to education with a particular focus on the ways in which assessment shapes the educational experience and influences pupils and students It adopts a critical approach arguing that there is a need for students to develop critical thinking skills be flexible and have the capacity for originality Education has increasingly come to be seen as a process with qualifications as the output however as economies change attaining advantage increasingly relies on creativity and originality Unfortunately in the quest to remove uncertainty from education creativity and originality are often overlooked and the result is that education is impoverished Creasy argues here that there is no single factor that has shaped education and led to this situation rather developments within education can be seen as having been shaped by a range of forces such as neoliberalism New Public Management standardization and internationalization This is not to claim any deliberate undermining of education but the cumulative effect is that education is less and less fit for purpose Written for anyone involved in education student teacher or manager this book draws upon Educations Studies Sociology and Social Policy to offer a compelling critique of contemporary education **Closing the Vocabulary Gap** Alex Quigley,2018-04-06 As teachers grapple with the challenge of a new bigger and more challenging school curriculum at every key stage and phase success can feel beyond our reach But what if there were 50 000 small solutions to help us bridge that gap In Closing the Vocabulary Gap the author explores the increased demands of an academic curriculum and how closing the vocabulary gap between our word poor and word rich students could prove the vital difference between school failure and success This must read book presents the case for teacher led efforts to develop students vocabulary and provides practical solutions for teachers across the curriculum incorporating easy to use tools resources and classroom activities *The Economist* ,1918 *Australian National Bibliography: 1992* National Library of Australia,1988 *The Athenaeum* James Silk Buckingham,John Sterling,Frederick Denison Maurice,Henry Stebbing,Charles Wentworth Dilke,Thomas Kibble Hervey,William Hepworth Dixon,Norman Maccoll,Vernon Horace Rendall,John Middleton Murry,1897 **International Conference on Road Traffic Signalling, 30 March-1 April 1982,**
