create an artificial climate in which people could return to paradise and yet the technical means employed were also basic to the century's developing industrial grime the other side of paradise Enriched by more than 700 illustrations Houses of Glass chronicles these pristine structures as they evolved from hothouses into exhibition halls ballrooms and theaters Georg Kohlmaier is an architect and Barna von Sartory a sculptor They have collaborated on many books and articles on contemporary architecture

Bitter Blood Rachel Caine, 2013-04-02 For years the human and vampire residents of Morganville Texas have managed to co exist in peace But now that the threat to the vampires has been defeated the human residents are learning that the gravest danger they face is the enemy within Thanks to the eradication of the parasitic creatures known as the draug the vampires of Morganville have been freed of their usual constraints With the vampires indulging their every whim the town's human population is determined to hold on to their lives by taking up arms But college student Claire Danvers isn't about to take sides considering she has ties to both the humans and the vampires To make matters worse a television show comes to Morganville looking for ghosts just as vampire and human politics collide Now Claire and her friends have to figure out how to keep the peace without ending up on the nightly news or worse

The Rebel Scribe Christopher Neal, 2022-01-27 Carleton Beals was among America's most distinctive foreign correspondents His colorful combatively critical reporting of U S intervention in Latin America had a fearless energy and authority that won him millions of readers He interviewed the Nicaraguan rebel leader Sandino in the camp from which he fought thousands of U S marines in 1928 covered two revolutions in Cuba 1933 and 1959 and interpreted the Mexican Revolution for American readers Beals's dispatches and features appeared regularly in the Nation New Republic Current History and the Progressive and often in the New York Times Time magazine called him the best informed and the most awkward living writer on Latin America Forty books including chronicles political analysis and novels drawn mostly from his travels and wide ranging contacts in what he called America South made that characterization apt But Beals was also an eyewitness reporter on Mussolini's rise in Italy He wrote on U S topics too such as Louisiana's Huey Long and the environmental damage and rural migration in the 1930s caused by emerging agri business in America's South and West Many of his books were best sellers their evidence based assessments earning at least grudging respect even among those who took issue with his indictments of U S economic and government elites At once biography and analytical history The Rebel Scribe tells the story of a fiercely independent non conformist It probes Beals's interactions with political leaders democrats demagogues populists and revolutionaries and reveals how his ability to immerse himself in their societies gave his accounts a palpable authenticity and time has shown a prescience that is almost prophetic Christopher Neal's layered narrative traces how Beals identified patterns of political behavior and concepts that later became fully fledged schools of thought such as the idea of a Third World dependency theory U S neo imperialism and aspects of critical theory His story sheds light on the evolution of U S foreign policy and intervention from Mexico and Nicaragua in the 1920s to Cuba and Vietnam in the 1960s It reveals the

fraught trail that faced and still faces contrarian journalists who challenge conventional assumptions while also showing how probing journalism drives change Fall of Night Rachel Caine, 2013-10-01 Thanks to its unique combination of human and vampire residents Morganville Texas is a small college town with big time problems When student Claire Danvers gets the chance to experience life on the outside she takes it But Morganville isn't the only town with vampire trouble Claire never thought she'd get to leave Morganville but she can't pass up the chance to finally attend her dream school MIT After all getting to invent anti vamp devices with Professor Anderson a Morganville exile herself sounds like a dream come true until Claire realizes that there are sinister forces in play and she's not the only one with a vampire related agenda Without her friends Shane Eve and Michael surviving a killer schedule may be hard but with them it might turn out to be impossible
