Morey,2013-12-03 The groundwork for the Asian economic miracle was established in the last 25 or so years the time period covered in this book China and Vietnam started substituting pragmatism for communist ideology and Thailand started on a path toward greater democracy The timing was perfect for an American United Nations representative to arrive in the two communist countries because for the first time both placed a premium on improving relations with the U S and both were moving toward a market economy This book acquaints the reader with evolving political economic and social conditions in these countries and the role played by UN organizations A chapter on the South Pacific details the challenges of providing useful development assistance in small isolated countries The book also reveals a hidden side of the United Nations the role played by more than 30 UN agencies funds and programs in providing development and humanitarian assistance The past two or three decades were a period of great upheaval in Asia Enormous events and developments involving the United Nations are analyzed in the book These include the Tiananmen Square crisis in China 300 000 Cambodian refugees camped along the Thai border escaping the killing fields of the Khmer Rouge efforts to rid the Golden Triangle of opium production the sensitive diplomacy required in fostering cooperation among North Korea South Korea China and Mongolia and a firsthand account of negotiating the international agreement creating the Mekong River Commission World Swordfish Fisheries, Volume 6, Western Europe, NOAA Tech. Year-book** International Labour Office,1938 **Official Bulletin** International Labour Office,1954 **Federal Register** ,2005-11 Working in Hawaii Edward D. Beechert,1985-01-01 This comprehensive overview of Hawaiian history focuses on the common laborer s working conditions and quality of life In Working in Hawaii Edward D Beechert traced an evolution in the economic environment that progressed from the ancient Hawaiian communal society based on subsistence agriculture to the complex capitalistic economy of the present The book concentrates on the last 200 years when the most rapid and profound changes in the working environment occurred The Europeans and the Americans brought with them tools weapons diseases alcohol religion and money the trappings of an antithetical culture that was to change Hawaii forever Rich land good weather an abundant labor force and an exclusive American market appealed to enterprising investors To support their ambitions to turn a

Hawaiian society based on a subsistence economy into a Western industrial one based on plantation agriculture entrepreneurs introduced the concept of private property They supported it with a Western legal system Foreign labor was imported from Asia when the dwindling Hawaiian population could no longer meet the plantations growing need for a constant supply of cheap labor Beechert maintains that the workers far from being victims of this economic transition took advantage of the growing employment opportunities and made significant contributions to the development of the Hawaiian economy notably the sugar industry As the Island economy progressed the laborers confronted conditions unlike those of agricultural workers elsewhere They worked under three distinct forms of government that served a monarchy a republic and a colonial territory Their status ranged from that of indentured penal contract laborers to that of free wage laborers protected by the U S Constitution The struggle for dignity as important to the workers as the battle for decent wages and working conditions was long and discouraging but ultimately successful to a degree unmatched in the sugar producing world To put the history of labor in the Hawaiian islands in an expanded historical perspective the author discusses a record of labor legislation law enforcement and public policy concerning labor as well as details on how workers organized and formed modern unions By consulting a wide range of documentary sources including plantation records business memoranda union files legislation labor contracts court documents newspaper items and public speeches Beechert has made this the most complete history of labor in Hawaii to date Scholars and students of labor history sociological change and Hawaiiana should also appreciate the extensive bibliography Dust jacket *Report of Investigations* ,1948 *Decolonization and African Society* Frederick Cooper,1996-08-28 This detailed and authoritative volume changes our conceptions of imperial and African history Frederick Cooper gathers a vast range of archival sources in French and English to achieve a truly comparative study of colonial policy toward the recruitment control and institutionalization of African labor forces from the mid 1930s when the labor question was first posed to the late 1950s when decolonization was well under way Professor Cooper explores colonial conceptions of the African worker and shows how African trade union and political leaders used the new language of social change to claim equality and a share of power This helped to persuade European officials that the modern Africa they imagined was unaffordable Britain and France could not reshape African society As they left the continent the question was how they had affected the ways in which Africans could reorganize society themselves **Resources in Education** ,1993 **Country Reports on Human Rights Practices** ,2002 Oil Country Tubular Goods from China, Inv. 701-TA-463 (Final) , *Record of Proceedings - International Labor Conference* ,1983
