Implementing Student-Athlete Programming
Kristina M. Navarro, Lisa Melanie Rubin, Geoff Mamerow, 2019-07-30 In *Implementing Student-Athlete Programming*, scholars and practitioners provide an approachable and comprehensive overview of how to design, implement, and sustain best practices in the growing area of student athlete development. Exploring research approaches and critical frames for thinking about student athlete programming while covering topics such as the current context, challenges, programmatic approaches to support, and trends for the future, this resource also highlights programs that are effective in supporting students to succeed. This book provides higher education practitioners with the tools they need to effectively work with student athletes to not only transition to college but to develop meaningful personal, social, career, and leadership development experiences as they prepare for the transition to life after sport.

Reimagining Destiny: Reflective Poems of a New Generation Dr. Carolyn Princes, 2018-04-27 This book is a collection of reflective and celebratory poems based on phrases received from diverse graduating students for annual ethnic precommencement programs. From the selective works of several scholars, a young writer, and one who did not even participate in the programs, it gives insight into the thinking, feelings, beliefs, joys, values, and vision of contemporary students. It reflects how the next generation, the architects of tomorrow, envisioned their past and see their present and future roles as majority people. Individually and collectively, the book gives voice to an often unheard, silent youth. It evokes thoughts about the importance of involving diverse students in their education and today's matters. It serves as an instrument for reimagining a new generation of queens and kings to come. The destiny they foresee, combined with rethinking a greater urgency and a renewed look at people of color, is precursory, hopeful, and preparatory.

Drug Courts
James L. Nolan, Drug courts offer offenders an intensive, court-based treatment program as an alternative to the normal adjudication process. Begun in 1989, they have since spread dramatically throughout the United States. In this interdisciplinary examination of the expanding movement, a distinguished panel of legal practitioners and academics offers theoretical assessments and on-site empirical analyses of the workings of various courts in the United States, along with detailed comparisons and contrasts with related developments in Britain. Practitioners, politicians, and academics alike acknowledge the profound impact drug courts have had on the American criminal justice system. From a range of disciplinary perspectives, contributors to this volume seek to make sense of this important judicial innovation. While addressing a range of

questions Drug Courts also aims to achieve a careful balance between focused empirical studies and broader theoretical analyses of the same phenomenon The volume maintains an analytical concentration on drug courts and on the important practical philosophical and jurisprudential consequences of this unique form of therapeutic jurisprudence Drug courts depart from the practices and procedures of typical criminal courts Prosecutors and defense counsel play much reduced roles Often lawyers are not even present during regular drug court sessions Instead the main courtroom drama is between the judge and client both of whom speak openly and freely in the drug court setting Often accompanying the client is a treatment provider who advises the judge and reviews the client's progress in treatment Court sessions are characterized by expressive and sometimes tearful testimonies about the recovery process and are often punctuated with applause from those in attendance Taken together the chapters provide a variety of perspectives on drug courts and extend our knowledge of the birth and evolution of a new movement Drug Courts is an essential reference for courses in criminology the sociology of drugs and deviance and the philosophy of law and punishment *Federal Probation*, 1998 Army family team building United States.
