June Consumer Report On Mattresses:

Consumer Reports, 1973 *Current Industrial Reports*, 1963 *The Buyout of America* Josh Kosman, 2009-11-12 An authoritative expos of the mysterious and potentially dangerous world of private equity Few people realize that the top private equity firms such as Blackstone Group Carlyle Group and Kohlberg Kravis Roberts have become the nation's largest employers through the businesses they own Using leveraged buyouts that load their acquired companies with loans private equity firms have generated more than 1 trillion in new debt which will come due just when these businesses are least likely to be able to pay it off Journalist Josh Kosman explores private equity's explosive growth and shows how its barons wring profits at the expense of the long term health of their companies He argues that excessive debt and mismanagement will likely trigger another economic meltdown within the next five years wiping out up to two million jobs He also explores the links between the private equity elite and Washington power players who have helped them escape government scrutiny The result is a timely book with an important warning for us all *NBS Technical Note*, 1972 **CU Consumer Reports**, 1939

Hogan, Jack D. Edinger, Gayle S. Bieler, Andrew D. Krystal, 2011-08-07 A comfortable mattress is said to be an essential ingredient in a good night's sleep but we have little understanding of the effects of sleep surface on sleep outcomes such as daytime drowsiness or energy Most studies devoted to testing the effects of sleep surface on sleep have been hampered by methodological shortcomings these include having small numbers of subjects and evaluating a narrow array of bedding systems We hypothesized that motion and self reported measures of sleep quality and outcomes would demonstrate that the optimal mattress would differ from person to person We hypothesized that individuals would be able to select one mattress from among several under showroom circumstances that would lead to optimal rest We find that optimal mattress firmness varies among individuals and is reflected at least to a degree by overnight motion When allowed to test mattresses in a typical showroom experience individuals choose a mattress that does not minimize overnight motion and maximize perceived sleep quality This suggests that they may not be receiving the health benefits that come from optimal rest Therefore both manufacturers and sleep scientists could improve sleep outcomes by testing ways to help consumers select a mattress **Annual Report** U.S. Consumer Product Safety Commission, 1974 **A. yourself a total makeover that didn't require investing in dozens of products. What if you could lose weight, look younger, and improve your sex life in only four weeks? The solution to your problems doesn't call for lengthy treatments at health spas or expensive surgeries, and it won't require you to give up all of your favorite foods. All you need to do is get a good night's sleep. Research shows that sleep deprivation affects every aspect of our lives. With a good night's sleep, your skin will glow, you will no longer crave unhealthy foods, and you'll increase your sex drive. Dr. Michael Breus has outlined a program that will not only help you to get a better night's sleep tonight but will give you the tools to become more beautiful than you've ever been.
