

Unit 10: Reading

Active Reading**Section: How Population Change Is Measured**

Read the passage below and answer the questions that follow.

Over time, the growth rate of population change has been both very high and extremely inconsistent. In fact, almost every nation's policies, especially in the third world, were geared toward low birth rates, resulting in many of the countries losing the average healthy children to population-related causes. The result was that at each point of change, predominantly the underdeveloped and very poor areas lost young, economically productive, better educated and population-wise reproductive forces that generated new foreign-born workers, population and growth.

Section: How Growth Is Measured

The average growth is the average of the growth rates of a country. This means that the average growth rate is very high. However, it is not a very good measure of population change because it is not a very good measure of population change.
