Poetry's Data Meredith Martin, 2025-04-22 In this book Meredith Martin presents a historical account of prosodic criticism and through the example of her own research path argues for new scholarly practices in literary studies and the humanities more broadly Challenging the common scholarly practice of emphasizing one critical narrative one pathway through history or one author s reading the book traces three arcs the effects of the major shift in the late twentieth century from print based to digital resources in scholarship with the emergence of the World Wide Web Martin s experience as a scholar who coordinated a digital project about the history of the study of poetry which led to the creation of the Princeton Prosody Archive and the founding of Princeton s Center for Digital Humanities CDH and the mix of computational and aesthetic elements in the study of prosody including the study of versification and meter in the broader context of English literary study as a discipline Across these three arcs Martin argues that scholars must take seriously the idea of digital media as mediation through which textual forms are transformed into data and delivered to us via data structures and that our reading of historical texts in digital forms must reckon with these mediations She also demonstrates the connection between the intellectual labor of studying prosody or any historical object and the intellectual labor of fostering a collaborative research process This is a book she writes about the shifting grounds of knowledge production in the digital age and how we might situate ourselves amid these shifts by returning to of all things poetry

Poetry's Knowing Ignorance Joseph Acquisto,2019-09-19 What kind of knowledge if any does poetry provide Poets make poems but they also make meaning and craft a kind of learned and creative ignorance as they provide infinitely revisable answers to the question of what poetry is That question of poetry's definition invites broader ones about the relationship of poetry to other lived experience Poetry thus implies something like a way of life that is resistant to definitive statements and conclusions and the creation of communities of readers and writers that live in ever renewed questioning To resist concluding is to embrace a kind of productive ignorance a knowledge that is first and foremost aware of poetic knowledge's own limits Poetry's Knowing Ignorance shows through an examination of French poetry how it is this dialogue in response to a constant questioning to an answer turned question that continues to blur the boundary between poetry and writing about poetry between poetry and criticism and between poetry and other kinds of experience
