Just One Thing:

Brainstyles Marlane Miller, 2012-09-25 In this insightful inspirational self help book readers will journey from the hard edged realities of genetics and personal limitations to a limitless spiritual path and personal mastery of one's brainstyle. Each of us has a natural brainstyle wired into our genes. Your brainstyle is your particular set of gifts, the essence of who you are. Neurological research has shown that the left and right sides of the brain are accessed at different speeds and in varying sequences in different people. This is critically important when making decisions. So important that relationships and businesses pivot around those judgments. By understanding how your brainstyle mandates your decisions, you can deliver your best in any relationship. Entertaining and easy self tests help you to identify your brainstyle. Clarity and focus follow along with a new foundation for self esteem beyond personal insights to authentic ways of interacting with others that draw out the best in each of you.

F.S.P. Arthur Gwynn-Browne, 2017-07-24 I am in the F S P F S P stands for Field Security Personnel. That is the authorized version. So begins this remarkable account of six months service with the British Expeditionary Force in France up to and including the terrible retreat to and evacuation from the beaches of Dunkirk at the end of May 1940. Absorbing, affecting, thrilling, often funny, this book is very different from other war memoirs. It was the first on the ground account of Dunkirk to be published in 1942 and lacks nothing in the immediacy of its telling. The narrative is gripping and the style is revolutionary, immersing the readers in the emotional and psychological turbulence of the author's experience and making them feel they are living through it themselves. The result is a stunningly authentic and involving record of one of the defining episodes of twentieth century British history. Editor N H Reeve provides a lucid critical and biographical Afterword and includes two extracts from an unfinished work by Gwynn Browne in which his idiosyncratic stream of consciousness style is used to describe the London Blitz and the mood of the civilian population in wartime.

Made Like Martha Katie M. Reid, 2018-07-10 An invitation for overachievers to discover what it means to rest as God's daughters without compromising their God-given design as doers. Are you a Martha who feels guilty for not being a Mary? Do you want to sit at Jesus's feet as Mary did but you feel the need to get things done? In *Made Like Martha* Katie M Reid invites you to exchange try-hard striving for hope-filled freedom without abandoning your doer's heart in the process. Through her own story and rich biblical illustrations, Katie reminds you that it's not important whether you sit and listen or stand and work. What matters is that your spiritual posture is one of a beloved daughter who knows she doesn't need to earn God's love. Your desire to get things done is not something to temper but something to embrace as you serve from a place of strength and peace, knowing Christ already did His most important work for you on the cross. With *It Is Finished* activities at the end of each chapter and a five-week Bible study included, *Made Like Martha* helps you find rest from striving even as you celebrate your God-given design to do. *Made Like Martha* will infuse your life with a fresh perspective as you learn both to embrace your God-given personality and also discover how and when to rest and retreat. Karen Ehman, Proverbs 31 Ministries speaker.

Hofstadter, Emmanuel Sander, 2013-04-23 *Analogy is the core of all thinking* This is the simple but unorthodox premise that Pulitzer Prize winning author Douglas Hofstadter and French psychologist Emmanuel Sander defend in their new work Hofstadter has been grappling with the mysteries of human thought for over thirty years Now with his trademark wit and special talent for making complex ideas vivid he has partnered with Sander to put forth a highly novel perspective on cognition We are constantly faced with a swirling and intermingling multitude of ill defined situations Our brain's job is to try to make sense of this unpredictable swarming chaos of stimuli How does it do so The ceaseless hail of input triggers analogies galore helping us to pinpoint the essence of what is going on Often this means the spontaneous evocation of words sometimes idioms sometimes the triggering of nameless long buried memories Why did two year old Camille proudly exclaim I undressed the banana Why do people who hear a story often blurt out Exactly the same thing happened to me when it was a completely different event How do we recognize an aggressive driver from a split second glance in our rearview mirror What in a friend's remark triggers the offhand reply That's just sour grapes What did Albert Einstein see that made him suspect that light consists of particles when a century of research had driven the final nail in the coffin of that long dead idea The answer to all these questions of course is analogy making the meat and potatoes the heart and soul the fuel and fire the gist and the crux the lifeblood and the wellsprings of thought Analogy making far from happening at rare intervals occurs at all moments defining thinking from top to toe from the tiniest and most fleeting thoughts to the most creative scientific insights Like G Escher Bach before it *Surfaces and Essences* will profoundly enrich our understanding of our own minds By plunging the reader into an extraordinary variety of colorful situations involving language thought and memory by revealing bit by bit the constantly churning cognitive mechanisms normally completely hidden from view and by discovering in them one central invariant core the incessant unconscious quest for strong analogical links to past experiences this book puts forth a radical and deeply surprising new vision of the act of thinking
