

<b>TEXT C provides information about how to improve your sprinting skills.</b>	
In <b>ONE</b> paragraph of between <b>70 - 80</b> words, write a summary on steps to get faster at sprinting.	
<b>Note:</b>	
1.	You are <b>NOT</b> required to give a title for the summary.
2.	You must write a fluent paragraph.
3.	Use your own words as far as possible.
4.	Indicate your word count at the end of your summary. You will be penalised for exceeding the maximum number of words or failing to indicate the number of words used.

<b>STEPS TO GET FASTER AT SPRINTING</b>	
1	You want to get faster? Who doesn't? Well, one of the main factors is form. Sprinting isn't exactly just a speed-up version of your regular form during an easy run or jog. The movement patterns of running and sprinting are different, sprinting is more explosive, to be precise. To supercharge your sprints, you will need to get the basics down first.
2	The harder you run, the more vital it is to warm up your muscles. Walk and easy run for five to 10 minutes, and include dynamic exercises or drills like high knees, or simply try this 5-minute warm-up routine.
3	Keep your torso upright, shoulders relaxed and away from your ears, and engage your core. You should also try to incorporate core-strengthening moves – think side planks with reach, legs down with scissors, and mountain climbers – into your workouts to help give you the power to push forward.
4	Land on your forefoot, and focus on pushing off from your toes to propel yourself forward and keeping your feet flexed upward toward your shins. Running softer and landing quieter might help reduce injury. Hold your arms in a bent position at 90 degrees, and drive your elbows backward to create momentum. Think like a cyclist and move your feet in a circular motion, raising your thighs up until they are parallel to the ground.
5	Long strides are energy wasters –focus on speed rather than distance as you sprint. You'll run faster and more efficiently by taking short, quick strides. Relax and sync your breathing to the rhythm of your feet. You'll reduce wasted energy from muscle tension. Follow these tips to improve your breathing while you run to help prevent possible injuries.

## **Geography Grade 10 Caps Exam Papers:**

**Ecotheology** Levente Hufnagel, 2023-01-11 Ecotheology Sustainability and Religions of the World gives a very interesting overview of the frontiers of scientific research in this important multi and transdisciplinary area Its chapters use ecotheological approaches to discuss the multiple aspects of an environmental crisis from almost every segment of our planet This book will be very useful for everyone researchers teachers students or others interested in the field who would like to gain some insights into this aspect of our culture

**Geography Teacher Education and Professionalization** Eyüp Artvinli, Inga Gryl, Jongwon Lee, Jerry T. Mitchell, 2022-11-02 This book focuses on how current and prospective teachers worldwide are prepared for the significant task of teaching geography given the important role of teachers It eschews a traditional career centric framework pre service in service teaching in favor of a topical approach toward issues that all teachers face The book updates thinking on geography education subfields such as GI education and fieldwork and traces important contemporary discourses such as digitalization and sustainability The book further explains the broad variety of institutionalization of geography teacher education in various political systems In short this book collects strategies for geography teacher educators worldwide to provide insight into the challenges conditions and solutions present at the classroom and institutional level As such this book is a must have for teacher educators and geography teachers worldwide

Michigan School Moderator , 1908 **The Global Testing Culture** William C. Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions

of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences
