Idleness Indolence And Leisure In English Literature:

Idleness, Indolence and Leisure in English Literature M. Fludernik, M. Nandi, 2014-11-11 Idleness Indolence and Leisure in English Literature is the first study to provide transhistorical perspectives and cutting edge critical analyses of debates concerning idleness in English literature The topicality of the subject is emphasized by two pieces of sociological analysis

Idleness and Aesthetic Consciousness, 1815-1900 Richard Adelman, 2018-08-02 Charting the failure of the Romantic critique of political economy Richard Adelman explores the changing significances and the developing concepts of idleness and aesthetic consciousness during the nineteenth century Through careful analysis of some of the period's most influential thinkers including John Stuart Mill George Eliot John Ruskin and Karl Marx Adelman weaves together evolving ideas across a range of intellectual discourses political economy meditative poetry the ideology of the gospel of work cultural theory the Gothic and psychoanalysis In doing so he reconstructs debates over passivity and repose and demonstrates their centrality to the cultural politics of the age Arguing that hardened conceptions of aesthetic consciousness come into being at moments of civic unrest concerning political representation and that the fin de siècle witnesses the demonization of the once revolutionary category of aesthetic consciousness the book demonstrates that late eighteenth century positivity around human spirituality is comprehensively dismantled by the beginning of the twentieth century

The Travel Writings of Marguerite Blessington Aneta Lipska, 2017-06-01 This book derives from the conviction that Marguerite Blessington 1788 1849 merits scholarly attention as a travel writer and thus offers the first detailed analysis of Blessington's four travel books A Tour in The Isle of Wight in the Autumn of 1820 1822 Journal of a Tour through the Netherlands to Paris in 1821 1822 The Idler in Italy 1839 and The Idler in France 1841 It argues that travelling and travel writing provided Blessington with endless opportunities to reshape her public personae demonstrating that her predilection for self fashioning was related to the various tendencies in tourism and literature as well as the changing aesthetic and social trends in the first half of the nineteenth century

Representing Poverty in the Anglophone Postcolonial World Verena Jain-Warden, Barbara Schmidt-Haberkamp, 2021-06-07 Originally a concern primarily of social studies and economics poverty has emerged as a significant thematic focus and analytical tool in literary and cultural studies in the last two decades The new poverty studies are dedicated to analyzing representations of poverty and the poor in literature and the visual arts in the news media and in social practices They aim at exploring the frameworks of representation that impact the affective and ethical responses of audiences to disenfranchised groups such as the poor The contributions to this volume focus on representations of poverty in the Anglophone postcolonial world exploring for example contemporary discourses on poverty in the UK filmic representations of Nairobi slums or the agency of the poor in literature from India

Refiguring Speech Amy R. Wong, 2023-07-18 In this book Amy R Wong unravels the colonial and racial logic behind seemingly innocuous assumptions about speech that our words belong to us and that self possession is a virtue Through readings of late Victorian fictions of

empire Wong revisits the scene of speech's ideological foreclosures as articulated in postcolonial theory Engaging Afro Caribbean thinkers like Édouard Glissant and Sylvia Wynter *Refiguring Speech* reroutes attention away from speech and toward an anticolonial poetics of talk which emphasizes communal ownership and embeddedness within the social world and material environment Analyzing novels by Robert Louis Stevenson Bram Stoker George Meredith Joseph Conrad and Ford Madox Ford Wong refashions the aesthetics of disordered speech such as parroting eavesdropping profuse inarticulacy and dysfluency into alternate forms of communication that stand on their own as talk Wong demonstrates how late nineteenth century Britain's twin crises of territorialization of empire and of new media spurred narrative interests in capturing the sense that speech's tethering to particular persons was no longer tenable In doing so Wong connects this period to US empire by constructing a genealogy of Anglo American speech's colonialist and racialized terms of proprietorship *Refiguring Speech* offers students and scholars of Victorian literature and postcolonial studies a powerful conceptualization of talk as an insurgent form of communication

Father Chaucer Samantha Katz Seal, 2019-09-26 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Geoffrey Chaucer has long been lauded as the Father of English Poetry For later authors and scholars the late medieval poet has served as a symbol of male authority and literary paternity upon whom successive centuries of the English canon may comfortably rest Yet for Chaucer himself the idea of paternity whether poetic or biological was far from stable or reassuring Reading Chaucer's masterpiece *The Canterbury Tales* alongside its theological poetic and scientific contemporaries this book argues that Chaucer was fascinated by the promise offered by metaphors of reproduction paternity and lineage However in the wake of the Black Death Hundred Years War and other demographic crises Chaucer could not help but perceive paternal authority as a transitory uncertain ambition one capable of devastating male authority as surely as it could enshrine it Likewise medieval Christian doctrine taught that the earth was but a temporary sorrowful abode for corrupt mortal men who committed a form of blasphemy by longing for earthly memorializations of their lives Chaucer knew that God had set sharp limits upon man's ability to create with certainty and to determine his own posterity Still what could be more human than the longing to wrest some small authority from one's own flesh This book argues that within *The Canterbury Tales* Chaucer consistently confronted the impossibility of men's desire to see their offspring both biological and poetic last beyond their own deaths to

claim the authority simultaneously promised and denied by the very act of creation **Russomania** Rebecca Beasley, 2020-03-31 *Russomania* Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class. The British intelligentsia. *Russomania* argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s. *future Handbook of British Travel Writing* Barbara Schaff, 2020-09-07 This handbook offers a systematic exploration of current key topics in travel writing studies. It addresses the history, impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters. Combining theoretically informed, astute literary criticism of single texts with the analysis of the circumstances of their production and reception, these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing. **The Experience of Idling in Victorian Travel Texts, 1850-1901** Heidi Liedke, 2018-08-02 This book brings together theories of spatiality and mobility with a study of travel writing in the Victorian period to suggest that idleness is an important but neglected condition of subjectivity in that era. Contrary to familiar stereotypes of the Victorians as characterized by speed, work and mechanized travel, this book asserts a counter narrative in which certain writers embraced idleness in travel as a radical means to re-subjectification and the assertion of a late Romantic sensibility. Attentive to the historical and literary continuities between Romantic and Victorian, the book reconstructs the Victorian discourse on idleness. It draws on an interdisciplinary range of theorists and brings together a fresh selection of accounts viewed through the lens of cultural studies as well as accounts of

publication history and author biography Travel texts from different genres by writers such as Anna Mary Howitt Jerome K Jerome and George Gissing are brought together as representing the different facets of the spectrum of idleness in the Victorian context
