this focus allows her to explore how uneven patterns of economic development are consolidated and understood Organized around two principal episodes the 1932 Constitutionalist Revolution and 1954 s IV Centen rio the quadricentennial of S o Paulo s founding this book shows how both elites and popular sectors in S o Paulo embraced a regional identity that emphasized their European origins and aptitude for modernity and progress attributes that became and remain associated with whiteness This racialized regionalism naturalized and reproduced regional inequalities as S o Paulo became synonymous with prosperity while Brazil s Northeast a region plagued by drought and poverty came to represent backwardness and S o Paulo s racial Other This view of regional difference Weinstein argues led to development policies that exacerbated these inequalities and impeded democratization
