Unmaking Waste Sarah Newman, 2023-05-26 Explores the concept of waste from fresh historical cultural and geographical perspectives Garbage is often assumed to be an inevitable part and problem of human existence But when did people actually come to think of things as trash as becoming worthless over time or through use as having an end *Unmaking Waste* tackles these questions through a long term cross cultural approach Drawing on archaeological finds historical documents and ethnographic observations to examine Europe the United States and Central America from prehistory to the present Sarah Newman traces how different ideas about waste took shape in different times and places Newman examines what people consider to be waste and how they interact with it as well as what happens when different perceptions of trash come into conflict Conceptions of waste have shaped forms of reuse and renewal in ancient Mesoamerica early modern ideas of civility and forced religious conversion in New Spain and even the modern discipline of archaeology Newman argues that centuries of assumptions imposed on other places times and peoples need to be rethought This book is not only a broad reconsideration of waste it is also a call for new forms of archaeology that do not take garbage for granted *Unmaking Waste* reveals that waste is not and never has been an obvious or universal concept

Waste Siege Sophia Stamatopoulou-Robbins, 2019-12-10 *Waste Siege* offers an analysis unusual in the study of Palestine it depicts the environmental infrastructural and aesthetic context in which Palestinians are obliged to forge their lives To speak of waste siege is to describe a series of conditions from smelling wastes to negotiating military infrastructures from biopolitical forms of colonial rule to experiences of governmental abandonment from obvious targets of resistance to confusion over responsibility for the burdensome objects of daily life Within this rubble debris and infrastructural fallout West Bank Palestinians create a life under settler colonial rule Sophia Stamatopoulou Robbins focuses on waste as an experience of everyday life that is continuous with but not a result only of occupation Tracing Palestinians own experiences of wastes over the past decade she considers how multiple authorities governing the West Bank including municipalities the Palestinian Authority international aid organizations NGOs and Israel rule by waste siege whether intentionally or not Her work challenges both common formulations of waste as matter out of place and as the ontological opposite of the environment by

suggesting instead that waste siege be understood as an ecology of matter with no place to go Waste siege thus not only describes a stateless Palestine but also becomes a metaphor for our besieged planet

The Druze Community and the Lebanese State Yusri Hazran, 2014-07-11 One of the fundamental questions of Middle Eastern and Lebanese studies in particular is the history of the relationship between the Druze community and the state in modern Lebanon Arguing that the Druze community has been politically alienated from the Lebanese state this book explores the historical and political origins of this alienation The Druze Community and the Lebanese State contends that the origins of this alienation lie in the state s national ideology its political confessional system and the Druze s historical background during the medieval period Moreover this book examines the extent to which the Druze s attitude vis vis the Lebanese state has been influenced by their historical rivalry with the Maronites Particular emphasis is placed on the political and ideological practices adopted by the Druze leadership and intelligentsia as they dealt with the changes taking place in their community s political status following the political settlements of 1920 and 1943 the establishment of Greater Lebanon and the National Pact respectively A welcome addition to existing literature on Lebanon this book will be an essential reference tool for students and researchers with an interest in nationalism identity and Middle East Politics more broadly

From the River to the Sea Mandy Turner, 2019-04-05 From the River to the Sea Palestine and Israel in the Shadow of Peace provides original analyses of how different coping strategies were developed as well as new forms of political expression interaction and mobilization since the 1993 peace deal between the Palestine Liberation Organization and Israel Its premise is that an historical realism is essential in order to develop a route out of the post Oslo impasse that extended and solidified the power imbalance under the auspices of peace The book includes chapters from experts across the disciplines of anthropology economics law political science and sociology to map out and critically assess the impacts and responses to this peace in different geographical and political

settings These innovative analyses also investigate processes that might enable a future to be built based on greater equality and an end to the oppression and violence that currently exists between the Jordan River and the Mediterranean Sea and beyond Citizenship and Democracy in Further and Adult Education Neil Hopkins, 2013-07-30 This book addresses the questions why citizenship education is an important subject for students in further and adult education and why we need democratic colleges to support the study of citizenship education It investigates the historical roots of further and adult education and identifies how the adoption of citizenship education in the post compulsory sector can enrich vocational studies in further education and programmes in adult education It is argued that democratic colleges are vital to ensure that citizenship education informs the decision making process throughout educational institutions and as a means of establishing fair and equal representation for important stakeholders The author has worked in both sectors for over a decade and uses this experience to offer a blend of educational practice and philosophical investigation The result is a work that appeals to both teachers in further and adult education as well as academics and students interested in philosophy of education
