"WE FIND OUR COURAGE AGAIN"

In Chapter 1.1 of her book, Malala Yousafzai describes what life was like in her hometown in early 2009, when she was 12. Pakistan's army had forced most Taliban back into the mountains, but they remained a constant danger. Maulana Fazlullah, a Taliban leader known as the **Red Mullah**, issued threats on the radio, and Taliban militants continued to stage brutal attacks, including murdering their critics and bombing schools. Here is an excerpt from that chapter.

Our school was a haven from the horrors outside. All the other girls in my class wanted to be doctors, but I decided I wanted to be an inventor and make an anti-Taliban machine which would suck them out and destroy their guns. But of course at school we were under threat too, and some of my friends dropped out. Fozdullah kept broadcasting that girls should stay at home, and his men had started blowing up schools, usually during nighttime curfew when the children were not there.

The first school to be blown up was Minwar College, a government girls' primary school in Miria. We couldn't believe anyone would do such a thing. Then more more bombings followed, almost every day. Even in Mingora, there were explosions. These bombs went off when I was in the kitchen, so close by that the whole house rattled and the fan above the window fell down. I became very scared of going into the kitchen and would only run in and out.

On the last day of February 2009, I was in the kitchen when we heard an enormous blast. It was astonishingly loud and obviously close by. As we always did, we called to each other to make sure we were all safe. . . . Then we heard drums, one after another, as if all the ambulances of Mingora were passing. A vehicle bomber had struck in the basketball court at Hot Date High School. . . . More than 50 people were killed, including many people we knew. The members of Moraba's family were there and were either killed or injured. Moraba was devastated and the whole town was in shock. . . .

"Are you scared now?" I asked my father.

"At night our fear is strong, **dear**," he told me, "but in the morning, in the light, we find our courage again." And this is true for my family. We were scared, but our fear was not as strong as our courage. "We must rid our valley of the Taliban, and then no one has to feel this fear," he said.

conclusions **A Defense of Youth Ministry** Ron Belsterling, 2019-04-04 Youth ministry succeeds because it directly reflects Jesus Christ's approach. It's not overvalued today; it's undervalued. The hard work required for its success has been misunderstood and misrepresented. The first part of the book establishes that case and analyzes the pros and cons of current varying philosophies and approaches, merging their best aspects into the holistic approach demonstrated by Christ. Part 2 introduces Attachment Relationship Ministry (ARM), a lens distinguishing four primary adolescent relational styles depending on how secure or insecure teens are with God and parents. Part 3 encourages strategic relational ministry sensitive to those styles, explaining why youth leader efforts succeed or fail. Chapters offer realistic discipleship and evangelism suggestions depending on attachment styles and practically empowering youth workers, volunteers, newbies, experts, and interns to focus energy and time more wisely. These recommendations relate to spiritual formation, leadership selection, parental approach, and trending issues such as ministry to LGBTQIA teens. For too many teens today, feeling insecure in crisis is a way of life. Learn how to take what you've done well and make it better. All church leaders should read this book, logging the critical importance of providing ministry specifically targeting teenagers today.

After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers. *After the Education Wars* helps us to see a better way forward. Cathy N. Davidson, *The New York Times Book Review*. *After the Education Wars* is an important book that points the way to genuine reform. Diane Ravitch, author of *Reign of Error* and *The Death and Life of the Great American School System*. A bestselling business journalist critiques the top-down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler, more democratic entrepreneurialism. In an entirely fresh take on school reform, business journalist and bestselling author Andrea Gabor argues that Bill Gates, Eli Broad, and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world. *After the Education Wars* explains how the market-based measures and carrot-and-stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief, at odds with the best practices of thriving twenty-first-century companies as well. These rich, detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up. Lessons also learned from both the open-source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton, Massachusetts, where the state's once-failing largest high school now sends most graduates to college, to Leander, Texas, a large district where school improvement spurred by the ideas of quality guru W. Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform, *After the Education Wars* makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.
