Management Accounting Carsten Berkau, 2023-09-25 Management Accounting is a textbook for business management study programmes. It covers the international syllabus of cost accounting and controlling on bachelor's and master's levels. Prof. Berkau has more than 25 years of teaching experience in Germany, UAS Osnabrück and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. The textbook strictly follows a case study based approach. All methods are discussed by easily understandable cases. The calculations demonstrate how to apply management accounting step by step. In the first chapters, the case study PENOR PLC about a British windows doors manufacturer explains the differences between financial accounting (IFRSs) and management accounting. In the next following sections, the textbook covers two points of view: 1. a controlling view with budgeting, cost volume profit analysis, degree of operating leverage, investment appraisal, mergers and cross border acquisitions and risk valuation Monte Carlo Simulation. 2. a cost accounting view that covers management accounting systems, flexible budgeting, cost allocation methods, performance measurement, monitoring, reporting, product calculation, manufacturing accounting, job order and process costing, activity based costing, target costing and contribution margin accounting. On the UVK website, numerous exam tasks with complete solutions, further study materials and links to video clips produced by Prof. Berkau are available for download.

Management Accounting Leslie G. Eldenburg, Albie Brooks, Gillian Vesty, Nicolas Pawsey, 2024-11-25 The fifth edition of Management Accounting integrates fundamental technical aspects pertaining to cost management and management accounting and control with contemporary and evolving themes and challenges. This comprehensive approach offers students studying cost and management accounting a nuanced understanding of the discipline. Emphasizing practical learning, the textbook facilitates student comprehension through the application of cost and management accounting techniques across diverse organizational contexts. Each chapter concludes with a range of student tasks designed to reinforce understanding and foster critical thinking.
