When incurred, direct labor costs increase the Work in Process Inventory account and, at the same time, increase the appropriate job order cost cards.</p> <p>Overhead . An estimated amount of overhead increases the Work in Process Inventory as work is done. The completed cost of goods produced decrease Work in Process Inventory and increase Finished Goods Inventory. When goods are sold, their costs are matched against the revenues generated. Cost of Goods Sold increases and Finished Goods decreases.</p>
DQ4.	Estimated and actual overhead costs are recognized and measured using the four steps. The four-step process involves planning an estimated rate at which overhead costs will be assigned to products or services, assigning overhead costs at this pre-
