Routines of Substitution Mark Priestley, 2018-08-14 This work is a historical and philosophical study of the programming work carried out by John von Neumann in the period 1945-8. At the heart of the book is an examination of a manuscript featuring the earliest known surviving example of von Neumann's coding a routine written in 1945 to mesh two sequences of data and intended to be part of a larger program implementing the algorithm now known as mergesort. The text of the manuscript itself along with a preliminary document describing the code he used to write this program are reproduced as appendices. The program is approached in three chapters describing the historical background to von Neumann's work, the significance of the sorting application itself and the development of the EDVAC, the machine for which the program was written. The subsequent chapters widen the focus again discussing the subsequent evolution of the program and the crucial topic of subroutines before concluding by situating von Neumann's work in a number of wider contexts. The book also offers a unifying philosophical interpretation of von Neumann's approach to coding. **Qualitative Research** Sharon M.

Ravitch, Nicole Mittenfelner Carl, 2019-12-20 The second edition of *Qualitative Research* focuses on cultivating and bridging theoretical, methodological and conceptual aspects to provide insight into their interactions in qualitative research. This comprehensive text helps students understand the central concepts, topics and skills necessary to engage in rigorous, valid and respectful qualitative research. Authors Sharon M. Ravitch and Nicole Mittenfelner Carl have written this text with student researchers in mind, balancing communicating the foundations and processes of qualitative research with clarity and simplicity while also capturing its complexity and layers. Whether students are new to qualitative research or not, this book will help students develop and deepen their understanding of an approach to research that seeks designs for and engages criticality in research. The new edition of this book includes a more prominently placed and expanded discussion of research ethics as crucial to students' inquiry, more information on reflexivity in data collection and individual methods for qualitative data collection, a more in-depth chapter on coding and other types of qualitative data analysis and more thorough resource sections including connections to the extensive appendices so students can further their qualitative research journey. Included with this title: The password-protected Instructor Resource Site, formally known as SAGE Edge, offers access to all text-specific resources including a test bank and editable chapter-specific PowerPoint slides. *Social Justice and*

Transformative Learning Sandra M. Tomlinson-Clarke, Darren L. Clarke, 2016-03-10 The similarities between the United States and South Africa with respect to race, power, oppression and economic inequities are striking, and a better understanding of these parallels can provide educational gains for students and educators in both countries. Through shared experiences and perspectives, this volume presents scholarly work from U.S. and South African scholars that advance educational practice in support of social justice and transformative learning. It provides a comprehensive framework for developing transformational learning experiences that facilitates leadership for social justice and a deeper understanding of

the factors influencing personal national and global identity Family Engagement in Black Students' Academic Success Vilma Seeberg, 2021-03-15 This timely volume presents powerful stories told by Black families and students who have successfully negotiated a racially fraught affluent and diverse suburban school district in America to illustrate how they have strategically contested sanctioned racist practices and forged a path for students to achieve a high quality education Drawing on rich qualitative data collected through interviews and interactions with parents and kin students community activists and educators Family Engagement in Black Students Academic Success chronicles how pride in Black American family history and values students personal capabilities and their often collective proactive challenges to systemic and personal racism shape students academic engagement Familial and collective cultural wealth of the Black community emerges as a central driver in students successful achievement Finally the text puts forward key recommendations to demonstrate how incorporating the knowledge and voices of Black families in school decision making remaining critically conscious of race and racial history in everyday actions and longer term policy and pursuing collective strategies for social justice in education will help eliminate current opportunity gaps and will counteract the master narrative of underachievement ever present in America This volume will be of interest to students scholars and academics with an interest in matters of social justice equity and equality of opportunity in education for Black Americans In addition the text offers key insights for school authorities in building effective working relationships with Black American families to support the high achievement of Black students in K 12 education Rules on the Web: From Theory to Applications Antonis Bikakis, Paul Fodor, Dumitru Roman, 2014-07-21 This book constitutes the refereed proceedings of the 8th International RuleML Symposium RuleML 2014 co located with the 21st European Conference on Artificial Intelligence ECAI 2014 held in Prague Czech Republic in August 2014 The 17 full and 6 short papers presented together with 3 keynote talks were carefully reviewed and selected from 48 submissions The papers cover the following topics semantic web rule languages and standards rule engines formal and operational semantics and rule based systems the relation between natural language and rules automation of business rules generation from existing data and aspects related to legal rules and norms for web and corporate environments *Federal Register* , 2013-08

Government Reports Announcements , 1974 The Bloomsbury Handbook of Gender and Educational Leadership and Management Victoria Showunmi, Pontso Moorosi, Charol Shakeshaft, Izhar Oplatka, 2022-02-24 Drawing together diverse research perspectives and theoretical underpinnings this handbook explores gender as a social category and examines cultural and social differences Bringing together diverse perspectives from around the world including from Africa Europe the Middle East the UK and the USA the volume sets out the gender and educational leadership and management field providing a snapshot of the field as it stands signalling its development and directions for future development It offers focused reviews of empirical research on particular aspects of the field and presents new insights from research findings and methodological approaches **Assessing Writing to Support Learning** Sandra Murphy, Peggy O'Neill, 2022-11-08 In this

book authors Murphy and O'Neill propose a new way forward moving away from high stakes test based writing assessment and the curriculum it generates and toward an approach to assessment that centers on student learning and success. Reviewing the landscape of writing assessment and existing research based theories on writing the authors demonstrate how a test based approach to accountability and current practices have undermined effective teaching and learning of writing. This book bridges the gap between real world writing that takes place in schools college and careers and the writing that students are asked to do in standardized writing assessments to offer a new ecological approach to writing assessment. Murphy and O'Neill's new way forward turns accountability inside out to help teachers understand the role of formative assessments and assessment as inquiry. It also brings the outside in by bridging the gap between authentic writing and writing assessment. Through these two strands readers learn how assessment systems can be restructured to become better aligned with contemporary understandings of writing and with best practices in teaching. With examples of assessments from elementary school through college chapters include guidance on designing assessments to address multiple kinds of writing integrate reading with writing and incorporate digital technology and multimodality. Emphasizing the central role that teachers play in systemic reform the authors offer sample assessments developed with intensive teacher involvement that support learning and provide information for the evaluation of programs and schools. This book is an essential resource for graduate students instructors scholars and policymakers in writing assessment composition and English education.

Organizational Behavior Mary Uhl-Bien, Ronald F. Piccolo, John R. Schermerhorn, Jr., 2023-05-23 An accessible and practical discussion of organizational behavior. In the newly updated third edition of *Organizational Behavior* a team of accomplished educators delivers a multidimensional text that combines analysis knowledge personal development and synthesis with useful pedagogical features that bring organizational behavior to life. This edition reconsiders organizational behavior from an interdisciplinary vantage point showing students the interdependence of factors that explain human behavior. Frequently addressed organizational behavior subjects are considered from within an integrated framework and are employed to answer functionally relevant questions about why people behave the ways in which they do as well as how to effectively influence and manage others.

The Making of Twenty-First-Century Richmond Thad Williamson, Julian M. Hayter, Amy L. Howard, 2024-12-02 Richmond Virginia took center stage globally in the summer of 2020 as an epicenter of antiracist protests in the wake of the police murder of George Floyd. In a period of just a few weeks overwhelming public support grew for removing Richmond's Confederate monuments. Activists then transformed the remaining statue of Robert E. Lee into a shrine to African American resolve to the Black Lives Matter movement and to Black victims of police brutality. Coming to terms with Richmond's tortured racial history however is much more difficult than toppling symbols of white supremacy. This book explores these dynamics via a multidisciplinary framework of historical research public policy analysis and political

analysis showing the inner dynamics of politics and governance in Richmond The authors reveal why change and progress has often been so difficult to achieve and why that matters with a focus on three fundamental policy areas education economic development and housing The result is a comprehensive assessment of urban governance in a major southern city in the early twenty first century as well as an accounting of the policy and human consequences of both its limited successes and its recurring failures

Media Capitalism Thomas Klikauer,2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media s ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society

Toward the Factory of the Future K. Kornwachs,Hans-Jörg Bullinger,Hans-Jürgen Warnecke,2013-12-14 The International Conference on Production Research has a good tradition The first Conference was held in Birmingham 1971 with 61 participants With respect to the decision that the Conference should be held every second year by this time the Conference has been held in the following countries Birmingham 1971 UK Copenhagen 1973 Denmark Amhurst 1975 USA Tokyo 1977 Japan Amsterdam 1979 The Netherlands Novi Sad 1981 Yugoslavia Windsor 1983 Canada Stuttgart 1985 Germany and the next Conference will take place in Cincinnati 1987 USA The number of submitted abstracts and papers was continuously increasing such that the Programme Committee of this actual 8th Conference on Production Research has been forced to introduce a further

refereeing procedure Each submitted abstract was presented to at least two referees This resulted not only in a reduction of the number of presented full papers and poster contributions but as the Programme Committee and the Editors hope it led also to a considerable increase in the scientific quality of this 8th International Conference on Production Research The preceeding conference in Windsor Canada was dedicated to the topic Production Research as a Means of Productivity Improvement We don t believe that this statement has become untrue in the meanwhile **Books in Print** ,1994
