The Politics of Vietnamese Craft Jennifer Way, 2019-10-03 Jennifer Way's study *The Politics of Vietnamese Craft* uncovers a little known chapter in the history of American cultural diplomacy in which Vietnamese craft production was encouraged and shaped by the US State Department as an object for consumption by middle class America. Way explores how American business and commerce department stores the art world and national museums variously guided the marketing and meanings of Vietnamese craft in order to advance American diplomatic and domestic interests. Conversely American uses of Vietnamese craft provide an example of how the United States aimed to absorb post colonial South Vietnam into the Free World in a Cold War context of American anxiety about communism spreading throughout Southeast Asia. Way focuses in particular on the part played by the renowned American designer Russel Wright contracted by the US International Cooperation Administration's aid programs for South Vietnam to survey the craft industry in South Vietnam and manage its production distribution and consumption abroad and at home. Way shows how Wright and his staff brought American ideas about Vietnamese history and culture to bear in managing the making of Vietnamese craft.

Young People, Media and Politics in the Digital Age Vera Slavtcheva-Petkova, 2023-10-27 The book explores the relationship among young people politics and the media. It presents a novel multidimensional analytical framework The Circle Line Media Model which accounts for the importance of a range of processes actors and social structures in the political socialisation process. By defining political socialisation as a lifelong interactive process that develops civic cultures collective identities and citizenship underpinned by social structures nationality and generational order the author draws attention to its manifestation in acts of political participation and interactions with authoritative actors such as school teachers family the media and friends peers. The volume's longitudinal study on young people Europe and the media spanning 13 years of research in two very different countries also makes recommendations for more effectively engaging young people with politics and political media based on Generation Z's own views about current deficiencies in their relationship with news media. Shedding new light on the changing nature of young people's engagement with politics this book will be of interest to researchers lecturers professors and upper level undergraduate and postgraduate students in the fields of media studies communication and journalism studies as well as politics and sociology.

Comparative Hong Kong Politics Mathew Y. H. Wong, 2017-04-03 This guidebook for students offers a survey of comparative politics intended for use in Hong Kong. Hong Kong is one of the world's great cities but its political future has never been hazier. Mass protests contested elections a 2047 transition causing uncertainty in financial and business elites for Hong Kong it is the best of times as well as the worst of times. Hong Kong University politics scholar Matthew Wong brings a clear headed and fact based approach introducing Hong Kong to scholars of comparative politics even as he introduces comparative politics to students in Hong Kong with this new area specific

Radical Identity Politics Torben Bech Dyrberg, 2020-07-31 This book outlines significant traits of radical leftist identity politics. In this type of discourse, arguments are organized around global friend enemy schemes in ways that are at odds with the right-left matrix of democracy. This is shown by combining discourse analysis of how leftist critics argue in public debates centred on their reactions to the Charlie Hebdo massacre in 2015 and theoretical discussions on leftist identity politics orbiting around Schmitt, Marcuse and Mouffe. It is argued that the friend enemy approach sacrifices the egalitarian and libertarian core values of the Left, leading it to adopt positions used to brand the reactionary Right. It also holds that leftist identity politics undermines democracy by moralizing enmity and stigmatizing dissent and by promoting an elitist and relativist agenda. Against this background, the book looks at the nature of the right-left distinction and its political functions in modern democracy. This is further elaborated in relation to the works of Foucault and Rawls's analyses of parrhesia, free speech and public reason, which provide a more fruitful approach to right-left and democracy than those based on enmity. For Foucault and Rawls, a vibrant pluralist democracy relies on the autonomy of politics, which secures a space in which citizens are free and equal, which is crucial for free speech and assembly. They focus on issues related to the autonomy of politics and the freestanding nature of public reason, right-left as lateral political orientation coupled with fairness as political justification and the links between regime form and political community as decisive for democracy.

The State of Political Science in Western Europe Hans-Dieter Klingemann, 2007-03-20 This volume is the definite statement on the current state of political science as a discipline in Western Europe. Detail: four chapters portray European developments. To know about the historical development, the organization of teaching and research, professional communication and the chances of students of political science in the job market is of essential importance to political scientists, university administrators and policy makers, national, European and global. This is particularly true after the Bologna Declaration when universities across Europe were asked to adopt: 1 a system of easily readable and comparable degrees; 2 a system based on two cycles; 3 the establishment of a common system of credits; 4 to increase student and teacher mobility; 5 to assure quality standards; and 6 to improve the European dimension in teaching. The book informs on these general issues and reports country-specific developments.

Discourse and Political Culture Michael Kranert, 2019-10-15 This book presents a new approach to comparative politico-linguistic discourse analysis. It takes a transdisciplinary stance and combines analytical tools from linguistic discourse analysis: keywords, metaphors, argumentation, genre and political science, political culture, comparative politics, ideologies. It is comprehensive in its introduction of approaches from the German tradition of politico-linguistics. This tradition has not thus far been accessible to a non-German speaking readership and hence the volume adds insights into the mechanics of political discourse from a diverse set of viewpoints. The book analyses the modernisation discourses in social democratic parties in Britain and Germany between 1994 and 2003, a project that was named Third Way. It demonstrates how political language and political culture are related and how politicians will adapt a global ideology to local political circumstances in order to convince the electorate. At

the same time the book presents new insights into the German political culture and the version of Third Way discourses in the Social Democratic Party of Germany SPD under the leadership of Gerhard Schröder which have played a key role in shaping current political discourse in Germany It concludes with a model for the study of political discourse which makes the work relevant to scholars in Social Sciences and beyond

Politics Recoded Aure Schrock, 2024-09-24 The first detailed history of Code for America that examines how democratically designed government systems can collectively improve technology's impact on society For decades tens of thousands of volunteers and employees of Code for America have taken a different path to institutional change through designing and implementing infrastructure In *Politics Recoded* Aure Schrock employs a robust organizational ethnography to analyze how Code for America's infrastructural organizing changed how politics get exercised showing how we citizens can work directly with the government on projects to improve our collective livelihoods Drawing from theories of organizing social infrastructure racialized organizations technical cultures and intersectionality Schrock argues that our post techlash society must no longer presume that corporate platforms or social networks can level social inequities An underrecognized yet influential organization Code for America emerged from a tech culture background that prioritized networks and publicity over the long slow work of institutional change But its evolution demonstrates how to push beyond the fundamental flaws of tech forward organizing This the first history of Code for America shows how promoting agentic citizenship and brokering in empathy let the organization influence policy at all levels of government and demonstrates why we need to bolster institutions to ensure that everyone is justly represented and receiving the benefits Appealing to those in political science communication and information studies *Politics Recoded* will empower practitioners and activists to revolutionize technological design and participate in alternative forms of civic engagement

Ethnic Boundaries in Turkish Politics Zeki Sarigil, 2018-09-04 The Kurdish Movement in Turkey's growing alliance with Islam One of the fault lines of Turkish politics traditionally has been the divide between religious and secular movements However as Zeki Sarigil argues the secular Kurdish movement in Turkey has increasingly become aligned with Islam As a result Islam has become part of the movement's political discourse strategies and actions *Ethnic Boundaries in Turkish Politics* traces the evolving relations between the leftist secular Kurdish movement and Islam from an apathetic and/or antagonistic attitude in the 1970s and 1980s to an increasingly Islam friendly approach in the 1990s to an attitude of accommodation and the rise of Kurdish Islamic synthesis in the early 2000s Based on 104 interviews in several provinces in Turkey primarily Ankara Diyarbakir Istanbul and Tunceli between 2011 and 2015 as well as ethnographic data public opinion surveys and statements from the Kurdistan Workers Party PKK and Kurdish leaders Sarigil shows how the secular Kurdish movement increasingly has been endorsing Islam and Islamic actors The reasons for this Islamic opening are global national and local Sarigil demonstrates that a group of strategic and ideological factors have encouraged and/or forced Kurdish leaders to redraw symbolic and social boundaries of the movement Namely with the end of the Cold War support for Marxist

ideas collapsed creating increasingly more favorable responses towards religion In addition the movement s need to expand its social basis and popularity electoral politics and legitimacy struggles against rival political actors were other major factors which triggered the Kurdish movement s boundary expansion i e its Islamic opening The study also shows that the Kurdish boundary making was not without any tension or contestation The boundary expansion by Kurdish ethnopolitical elites triggered both internal and external boundary contestations The movement s embrace of Islam on a more widespread level has major ramifications for politics in Turkey and in the region Ethnic Boundaries in Turkish Politics has important insight into the PKK modern Turkish and Islamic societies and highlights the increasing role of Islam in global politics

Revolutionizing Economic and Democratic Systems Kenneth Nordberg,2016-11-23 This book responds to an increasingly pluricentric reflexive and flexible society as a result of globalization and economic liberation from the bureaucratic political system The third industrial revolution saw citizens companies and the economy acting in functional networks rather than in static ones making top down governing ever more difficult Despite this society systems created in the wake of the second industrial revolution linger on and must adapt to the globalized digitized reality in order to stay necessary and relevant Through a theoretical discussion and four empirical cases studying governance and innovation systems this volume is the first to describe the causes behind the impasse Western society seems to find itself in and suggests inclusive economic and democratic structures working in a bottom up fashion as a way out By understanding local circumstances as well as the innovative power of inclusive and participative structures we can begin to pave the way to legitimate governance and growth This book adds to the academic literature on democracy governance economy and innovation systems for researchers and scholars of political science social science and economics

Research Methods for Political Science David E. McNabb,2015-07-17 Thoroughly updated more concise than the previous edition and available for the first time in paperback Research Methods for Political Science is designed to help students learn what to research why to research and how to research The text integrates both quantitative

and qualitative approaches to research in one volume and includes the most comprehensive coverage of qualitative methods currently available. It covers such important topics as research design, specifying research problems, designing questionnaires and writing questions, designing and carrying out qualitative research and analyzing both quantitative and qualitative research data. Heavily illustrated, classroom tested and exceptionally readable and engaging, the text also provides specific instructions on the use of available statistical software programs such as Excel and SPSS.

Hong Kong 20 Years after the Handover Brian C.H. Fong, Tai-Lok Lui, 2017-10-10. This book examines the socio-political conflicts which have arisen since Hong Kong's return to China and confronts the fundamental problems in the design of the One Country Two Systems (OCTS) Model. It considers not only the issue of democratization but also the institutional fractures in the executive dominant political system and the disconnection between the executive and the legislature. It describes the drastic changes which have affected social mobilization and political activism in Hong Kong as well as the pattern of interaction between the government and civil society. This edited volume brings together a team of cutting edge researchers to examine the operation of the One Country Two Systems (OCTS) Model in Hong Kong over the past 20 years. The discussion and analysis offered by the contributors will cast light on social and political tensions and conflicts that will continue to unfold in the coming years. This timely account, published on the 20th anniversary of the handover, will be a valuable read for students and scholars of Chinese and East Asian studies.
