

**MARK SCHEME for the May/June 2010 question paper
for the guidance of teachers**

5090 BIOLOGY

5090/21

Paper 2 (Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

How to Recruit and Retain Higher Education Students Tony Cook, Brian S. Rushton, 2009-09-10 How to Recruit and Retain Higher Education Students is an invaluable resource for academic staff administrators and policy makers involved in student recruitment and improving student retention It offers practical advice on how universities can influence the expectations of prospective students allowing them to make sensible decisions about careers courses and institutions Many surveys of students who drop out of university show that most do so out of disappointment Failing to understand what higher education was about quickly enough they become confused and frustrated Dropping out seems the best solution This book describes a series of practices proven to encourage students to stay on discussing the background research on student attrition By preparing students better for their higher education experience the practices in this book are effective not only in recruiting students but also in matching them to the right institutions and programmes The practices described range from those reaching out in a broad way to communities of potential students to university support for pre entry examinations to enhanced communication between institutions and applicants All are described in sufficient detail to allow judgments to be made about how to use and adapt them to suit local needs How to Recruit and Retain Higher Education Students provides a sound theoretical foundation for research into student retention

and provides the necessary underpinning for those academic staff embarking on courses and assists in preparing them for their roles in both teaching and student support *Household Food Security in the United States, 2003* Mark Nord,2004

Social Inequalities in Health in Nonhuman Primates Carol A. Shively,Mark E. Wilson,2016-04-20 This book provides a comprehensive look at nonhuman primate social inequalities as models for health differences associated with socioeconomic status in humans The benefit of the socially housed monkey model is that it provides the complexity of hierarchical structure and rank affiliation i e both negative and positive aspects of social status At the same time nonhuman primates are more amenable to controlled experiments and more invasive studies that can be used in human beings to examine the effects of low status on brain development neuroendocrine function immunity and eating behavior Because all of these biological and behavioral substrates form the underpinnings of human illness and are likely shared among primates the nonhuman primate model can significantly advance our understanding of the best interventions in humans **Troy Duster** John F.
