Glimpses into Primary School Teacher Education in South Africa Sarah Gravett, Elizabeth Henning, 2020-11-05

This book explores the current landscape of Initial Teacher Education ITE in primary schools in South Africa. Considering recent policy directives and initiatives, it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE. The book presents what works best for quality preparation of teachers in the Global South where many children rely on their teachers and school life to break the cycle of poverty. Chapters draw on evidence from workplace learning, pre-service study, and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa, addressing the clichés of theory versus practice. This book successfully brings out the challenging aspects of teacher education for childhood learning, which has otherwise been regarded as the softer option for a career in education. This book will be of great interest for academics, researchers, and post-graduate students in the fields of teacher education, African education, educational policy, international education, and comparative education.

Perspectives on Educational Governance S. Karin Amos, Felix Masarovic, Anne Rohstock, Alexander W. Wiseman, 2022. In March 2019, students and researchers from Germany, the USA, China, Kenya, and South Africa came together at the University of Tuebingen to discuss Educational Governance from an international perspective. The group was mainly comprised of Ph.D. and Master students from various disciplines: Education, Literature, Philosophy, Political Science, and debated questions such as: What are the distinctive and different rationales underlying the discourse of Educational Governance and its political, economic, academic, and pedagogic objectives? How can we make these rationales visible, and which theories and analytic tools can help us to decipher the meanings attached to them? Are there different local and national trajectories in education discourse and practice with regard to Educational Governance, and which role do international organizations and transnational transfer play? This edited volume displays these discussions and aims at initiating a broader communication about Educational Governance between previously separated spaces.
