Educational leadership today needs to focus on our teachers and support staff implementing a student centred pedagogy in their daily classroom instruction We need to train our educators to adapt their lesson plans to the everyday realities of their students This is the main building block in securing student success for each academic year What is a student centred approach This is the main focus of the book and the reader will be introduced to a variety of teaching success stories at the elementary secondary college and university levels in education Building Student Success Educating your staff on the necessity of building student success is crucial because at different levels of the students academic career we are not aware of all the experiences the student has been through throughout their journey in education Furthermore we may need to rebuild the students confidence trust and find ways to improve the joy of learning that was lost In this way we are able to sustain and maintain a true spirit of life long learning and maximize their unlimited potential This student centred pedagogy is critical for todays student and diverse methods are examined in detail in this text The text provides a step by step guide to help administrators policy makers and staff implement this pedagogy This pedagogy can be adapted at all levels of academia Within this book there are success stories and strategies that will enhance and empower your staff and will empower the educator Within its pages your confidence will grow and you will have a positive outlook on the future of education This text will make you a believer that we can make a sustainable positive impact in the lives of our students

Resources in Education ,2001-10 **Curriculum, Teaching and Learning Today** Karma M. Chukdong,2017-03-25 This text looks carefully at the sociological historical and economic sides of our education systems today Since education is ultimately linked to whose knowledge counts we are also forced to look at the world of Policy studies Policy studies itself should focus on diverse methodologies that guarantee authentic policy development In this way our society can automatically recognize when certain policies are a mere placebo This diagnosis of policy placebo is a pattern that we can see over and over and we should become more aware Policy placebo is when policy is created to make it look like an issue was trying to be resolved or it attempted to solve an issue but the intention was never an altruistic one Then there are some policies that may have good intentions but caused more harm than good

Education Management: Building Student Success Karma M. Chukdong B.Ed. M.A. M.Ed.,2016-09-28 Education management can seem like a very complex system and topic to examine and this is the reason for the text Everything in the text follows three streams of research a sociology b political science and c economics These three fields are interconnected when trying to improve schools and to be a positive leader in the realm of education management There is no defining definition of educational management since its essence encompasses these diverse disciplines sociology political science and economics As this text will prove the purpose of educational management is to bring students and teachers under positive conditions so high academic achievement can take place This research looked

at our education system and its origins This text is written for policy makers curriculum designers principals heads of departments and deans of colleges who can provide professional development to their staff Staff will be empowered with this compassionate student centered pedagogy that can enhance their teaching and their students performance This text is also organized in a way that can be easily accessible to parents Parents who care so deeply about their child but may not know where to start with long work days and overtime and not having time to truly understand complex systems like education I am certain that the dedicated and passionate parent can benefit from these findings and gain confidence in student teacher interviews no longer intimidated by schools teachers vice principals and principals but can see how true change can happen for their child This text can help them plan and avoid as many obstacles as possible in education for their child making it easier so that their child can soar throughout their high school journey postsecondary school graduate school and in their career of choice in the future This is the intent of the research herein and with hope and certainty this research will achieve all these lofty aims
