Rohweder, 2021-11-15 Helps librarians who are not themselves seasoned gamers to better understand the plethora of gaming products available and how they might appeal to library users As games grow ever more ubiquitous in our culture and communities they have become

popular staples in public library collections and are increasing in prominence in academic ones. Many librarians, especially those who are not themselves gamers or are only acquainted with a handful of games, are ill prepared to successfully advise patrons who use games. This book provides the tools to help adult and youth services librarians to better understand the gaming landscape and better serve gamers in discovery of new games, whether they are new to gaming or seasoned players through advisory services. This book maps all types of games: board, roleplaying, digital, and virtual reality, providing all the information needed to understand and appropriately recommend games to library users. Organized by game type, hundreds of descriptions offer not only bibliographic information (title, publication date, series, and format/platform) but genre classifications, target age ranges for players, notes on gameplay and user behavior type, and short descriptions of the game's basic premise and appeals.

Metareference across Media: Theory and Case Studies, 2009-01-01

Strange as it may seem, Cervantes's novel *Don Quixote*, Marc Forster's film *Stranger than Fiction*, Shakespeare's play *A Midsummer Night's Dream*, Pere Borrell del Caso's painting *Escaping Criticism* (reproduced on the cover of the present volume), and Mozart's sextet *A Musical Joke* all share one common feature: they include a meta-dimension. Metaization, the movement from a first cognitive, referential, or communicative level to a higher one on which first-level phenomena self-reflexively become objects of reflection, reference, and communication in their own right, is in fact a common feature not only of human thought and language but also of the arts and media in general. However, research into this issue has so far predominantly focussed on literature, where a highly differentiated albeit strictly monomedial critical toolbox exists. *Metareference across Media* remedies this on-sidedness and closes the gap between literature and other media by providing a transmedial framework for analysing metaphenomena. The essays transcend the current notion of metafiction, pinpoint examples of metareference in hitherto neglected areas, discuss the capacity for metaization of individual media or genres from a media-comparative perspective, and explore major historical forms and functions as well as aspects of the development of metaization in cultural history. Stemming from diverse disciplinary and methodological backgrounds, the contributors propose new and refined concepts and models and cover a broad range of media, including fiction, drama, poetry, comics, photography, film, computer games, classical as well as popular music, painting, and architecture. This collection of essays, which also contains a detailed theoretical introduction, will be relevant to students and scholars from a wide variety of fields: intermediality studies, semiotics, literary theory and criticism, musicology, art history, and film studies.

Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
