Writing: Step by Step Randy Devillez, 2003-05-30 What are your students' goals?

Jensen's Format Writing Frode Jensen, 2016-10-04 Jensen's Format Writing is concerned with developing expository writing skills for high school students. This type of writing exposes, puts forth, explains, reveals, or exhibits in detail about something. It has a purpose to inform, clarify, and perhaps even to persuade. Such writing may simply describe, or it may give a series of reasons. In any case, there is a fundamental point that is made. How that point is made may often determine whether the piece is accepted or rejected. Students completing this course will learn valuable skills: the secret of cutting your work in half when it comes to writing a paper; how to order your presentation for its most powerful effect on the reader; a technique for getting the essence of what you read down on paper for future reference; how to stack up your ideas so that they flow together in a natural fashion; how to move ideas from sentence to sentence by following a simple rule; all about what and how to document your sources when doing research and writing.

The Unity of Content and Form in Philosophical Writing Jon Stewart, 2013-07-18 In *The Unity of Content and Form in Philosophical Writing* Jon Stewart argues that there is a close relation between content and form in philosophical writing While this might seem obvious at first glance it is overlooked in the current climate of Anglophone academic philosophy which Stewart contends accepts only a single genre as proper for philosophical expression Stewart demonstrates the uniformity of today's philosophical writing by contrasting it with that of the past Taking specific texts from the history of philosophy and literature as case studies Stewart shows how the use of genres like dialogues plays and short stories were an entirely suitable and effective means of presenting and arguing for philosophical positions given the concrete historical and cultural contexts in which they appeared Now Stewart argues the prevailing intolerance means that the same texts are dismissed as unphilosophical merely due to their form although their content is in fact profoundly philosophical The book's challenge to current conventions of philosophical is provocative and timely and will be of great interest to students and scholars of philosophy literature and history
