

RFID-R Radio Frequency Identification Technology

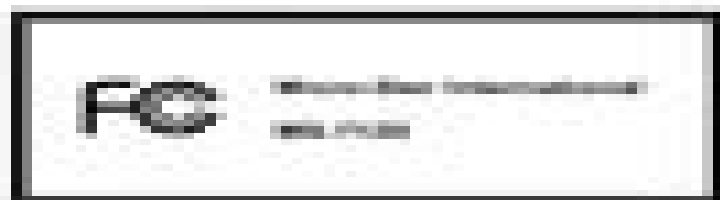

The equipment contains radio and/or optical components that may be a class II digital device (according to EN 60950-1:2006) notes These parts are designed to provide adequate protection against harmful interference when the equipment is operating in accordance with its intended purpose. The equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions provided, may cause harmful interference to radio communications. Operation of this equipment is in accordance with a Class B electromagnetic interference (EMC) limit value that can be used in order to ensure the functioning of the radio system.

Section 2

The changes or modifications not expressly permitted by the party responsible for maintenance must not be carried out by anyone other than the manufacturer.

Section 3

Electrical safety must be observed. Power must not be supplied to the unit or to any of the connected devices until the unit is ready to be safely used. Do not touch any terminals.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.
