Carbon Buster's Home Energy Handbook** Godo Stoyke,2006-11-01 Most people are unaware that environmental
problems such as climate change can be easily avoided at a profit through the intelligent application of appropriate
technology The Carbon Buster s Home Energy Handbook describes how to achieve this goal in the residential field The first
book in North America to provide a detailed carbon accounting of a family s carbon emissions and how to reduce them it
systematically analyzes energy costs and evaluates which measures yield the highest returns for the environment and the
pocketbook It provides answers to questions such as Which measure is more effective putting solar panels on your roof or
buying a hybrid car Where do I need to invest first in high efficiency shower heads or solar tubes Is a 500 fridge that uses
800 kWh of power per year a good buy The book allows individuals to quickly and accurately assess which products are a
good deal and which aren t It systematically analyzes residential carbon emissions and energy costs and prioritizes solutions
based on highest carbon reductions and monetary returns yielding results that are often surprising The book enables readers
to dramatically reduce their carbon emissions far below the levels targeted under the Kyoto Protocol At the same time
readers implementing the recommendations will save an average of 15 000 in energy costs over the next five years
