Digital Poetics Loss Pequeño Glazier, 2002 In *Digital Poetics* Loss Glazier argues that the increase in computer technology and accessibility specifically the World Wide Web has created a new and viable place for the writing and dissemination of poetry Glazier's work not only introduces the reader to the current state of electronic writing but also

outlines the historical and technical contexts out of which electronic poetry has emerged and demonstrates some of the possibilities of the new medium Glazier examines three principal forms of electronic textuality hypertext visual kinetic text and works in programmable media He considers avantgarde poetics and its relationship to the on line age the relationship between web pages and book technology and the way in which certain kinds of web constructions are in and of themselves a type of writing With convincing alacrity Glazier argues that the materiality of electronic writing has changed the idea of writing itself He concludes that electronic space is the true home of poetry and in the 20th century has become the ultimate space of poesis Digital Poetics will attract a readership of scholars and students interested in contemporary creative writing and the po
