Gcse Maths Linear Foundation 2013:

GCSE Mathematics for AQA Foundation Student Book Karen Morrison, Julia Smith, Pauline McLean, Nick Asker, Rachael Horsman, 2015-04-30 Created specifically for the AQA GCSE mathematics foundation tier specification for first teaching from 2015 this student book provides full coverage of the qualification With a strong focus on developing problem solving skills reasoning and fluency it helps students understand concepts apply techniques solve problems reason interpret and communicate mathematically From GCSEs to EBCs Great Britain. Parliament. House of Commons. Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals **Education Policy in England 2010-2024** Rebecca Morris, Thomas Perry, 2025-08-28 This text presents an informative overview of Conservative led education policy over the last 14 years The book provides a broad and detailed picture of the developing education landscape in England during this period highlighting the transformational and sometimes radical reforms that the country has seen Crucially the book draws together contributions from over 40 esteemed education researchers working in the UK The chapters showcase work from a range of experienced and early career researchers ensuring original thought provoking and evidence informed perspectives as we examine the impact of recent policy and explore how it might develop into the future Key thematic areas covered include Restructuring and governing the system Teaching policy practice and professionalism Confronting the challenges of inclusion and inequality Steering and transforming the curriculum and assessment This timely collection will interest students at all levels researchers education professionals and policymakers It sheds important light on this tumultuous era for education policy and will inform those interested in this area for years to come **Education in the United Kingdom** Colin

Brock,2015-01-29 Education in the United Kingdom is a comprehensive critical reference guide to education in England Scotland Wales Northern Ireland The Isle of Man The Channel Islands Gibraltar The Cayman Islands Bermuda Anguilla and The British Overseas Territories Although generically similar in education structures the various components of the United Kingdom have separate systems with some very distinctive differences The chapters written by regional experts offer a review of contemporary national and regional educational structures and policies research innovation and trends Some of the themes covered include issues relating to the partition of Ireland differences between maintained and independent schooling language issues and radical alternatives in teacher education Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets this book is an essential reference for researchers scholars international agencies and policy makers **Assessment Policy Reform** Tina Isaacs,Iasonas

Lamprianou,2020-05-21 This book highlights the impact of policy and politics on assessment across the globe With contributions from England the Irish Republic Northern Ireland Norway Sweden Switzerland and Wales it explores state led assessment policies and practices that have been the subject of much debate We are experiencing a shift from using assessments especially national tests as measurement instruments designed to produce information to a reliance on tests to influence policy and instruction Once tests become high stakes for students teachers and schools even those that might have been reasonable monitors of educational success can lose dependability and credibility However not all countries assessment policies follow the same model and the contributors explore and analyse a range of different national and supra national assessment policy approaches and perspectives The chapters identify the impetus behind changing assessment policies and practices and analyse ways forward and innovative approaches Readers can draw their own conclusions about which model s can provide the best outcomes for learners surely the most important part of the equation This book was originally published as a special issue of Assessment in Education Principles Policy Practice [Learning to Teach Mathematics, Second Edition](#)

Maria Goulding,2013-12-19 First Published in 2005 Updated to take account of the new Key Stage 3 Strategy and the Qualified Teacher Status standards for trainee teachers this book provides valuable insights into the effective teaching of secondary mathematics Drawing upon accounts of real classroom experiences it clearly explains how these can be related to key theoretical ideas and offer discussion of theory and research into the teaching and learning of mathematics background to current curriculum and assessment arrangements for mathematics in schools practical ideas for planning and evaluating the learning of your pupils background to the requirements for initial teacher training and insights into how you can develop continuously as a reflective teacher This resource has been written for students and newly qualified teachers of secondary mathematics and school based mentors [Debates in Geography Education](#) Mark Jones,David Lambert,2017-09-07 Debates in Geography Education encourages early career teachers experienced teachers and teacher educators to engage with and reflect on key issues concepts and debates It aims to enable readers to reach their own informed judgements with deeper

theoretical knowledge and understanding The second edition is fully updated in light of the latest research policy and practice in the field as well as key changes to the curriculum and examination specifications Expert contributors provide a range of perspectives on international historical and policy contexts in order to deepen our understanding of significant debates in geography education Key debates include geography's identity as an academic discipline what constitutes knowledge in geography places and regional geography what it means to think geographically constructing the curriculum how we link assessment to making progress in geography the contribution of fieldwork and outdoor experiences technology and the use of Geographical Information school geography and employability understanding the gap between school and university geography evidence based practice and research in geography education The comprehensive rigorous coverage of these key issues together with carefully annotated selected further reading will help support and shape further research and writing Debates in Geography Education is a key resource that is essential reading for all teachers and researchers who wish to extend their grasp of the place of geography in education Mark Jones is Senior Lecturer in Education at the University of the West of England Bristol UK David Lambert is Professor of Geography Education at UCL Institute of Education London UK
