[Free-Range Kids, How to Raise Safe, Self-Reliant Children \(Without Going Nuts with Worry\)](#) Lenore Skenazy, 2010-04-19. FREE RANGE KIDS has become a national movement sparked by the incredible response to Lenore Skenazy's piece about allowing her 9-year-old ride the subway alone in NYC. Parent groups argued about it, bloggers blogged, spouses became uncivil with each other, and the media jumped all over it. A lot of parents today, Skenazy says, see no difference between letting their kids walk to school and letting them walk through a firing range. Any risk is seen as too much risk. But if you try to prevent every possible danger or difficulty in your child's everyday life, that child never gets a chance to grow up. We parents have to realize that the greatest risk of all just might be trying to raise a child who never encounters choice or independence. **Adult Supervision**

Required Markella B. Rutherford, 2011-08-03. Adult Supervision Required considers the contradictory ways in which contemporary American culture has imagined individual autonomy for parents and children. In many ways, today's parents and children have more freedom than ever before. There is widespread respect for children's autonomy as distinct individuals, and a broad range of parenting styles are flourishing. Yet it may also be fair to say that there is an unprecedented fear of children's and parents' freedom. Dread about Amber Alerts and stranger danger have put an end to the unsupervised outdoor play enjoyed by earlier generations of suburban kids. Similarly, fear of bad parenting has not only given rise to a cottage industry of advice books for anxious parents but has also granted state agencies greater power to police the family. Using popular parenting advice literature as a springboard for a broader sociological analysis of the American family, Markella B. Rutherford explores how our increasingly psychological conception of the family might be jeopardizing our appreciation for parents and children's public lives and civil liberties. [Parenting Without Stress: How to Raise Responsible Kids While Keeping a Life of Your own](#) Dr. Marvin Marshall, 2011-01-05. This multiple award-winning e-book, written for anyone working with young people, is life-changing. It shows how to have young people influence themselves to become more responsible by implementing three practices, and by using the Raise Responsibility System. Bribes in the form of rewards, threats, and imposed punishments are not necessary. By showing how to promote responsibility rather than aiming at obedience, you become more effective, improve relationships, promote responsibility, and reduce stress for all.
