

# MOD-AI-4

## Features:

- 4 Channels Analog input – (12bit) 0-10V/0-20mA/4-20mA)
- LED indication for each input status, error, communication port and power ON
- DIN rail mount assembly
- DIP switch for Modbus RTU slave configuration
- No configuration software needed
- CE Mark

| General Product Specifications: MOD-AI-4 |                                                                                    |                             |
|------------------------------------------|------------------------------------------------------------------------------------|-----------------------------|
| Application                              | Industrial Automation                                                              |                             |
| Supply                                   | Voltage (typical)                                                                  | 24VDC                       |
