Electro Technology N3 Novmeber Exam 2014:

Building China into a Cyber Superpower Munish Sharma, 2024-04-26 This book provides a comprehensive look into China's emerging cyberspace strategy. It highlights the prime drivers of China's desire to be a cyber superpower and discusses the ways in which China is turning resources into cyber power. The book analyses China's domestic cyber policy initiatives, strategy documents, censorship measures, and the rationale behind its strong advocacy for sovereignty in cyberspace. It examines China's position on the prominent issues of cyberspace governance, norms, and security in cyberspace, and key diplomatic initiatives. The book also discusses next-generation networks, artificial intelligence, quantum information sciences, and cyber warfare. An important contribution to the study of China's cyber policy, the book will be of interest to students and researchers of international relations, Chinese digitalisation, security studies, Chinese politics, international security, Chinese foreign policy, and Chinese economy. It will also be useful to the policymakers and corporate professionals engaged with China's digital sphere.

TASKs for Democracy Josef Huber (Educator), Pascale Mompoin-Gaillard, Ildikó Lázár, 2015 This publication contains a rationale for the necessity to focus on competences for democracy in all areas of education, an explanation of what transversal attitudes, skills, and knowledge mean, and why they are important for and should be taken on board by all education professionals. A list of components forms the heart of the publication, describing the core attitudes, skills, and knowledge which need to be developed by every individual in order to be able to live in and to contribute to the development and maintenance of democratic societies in their full diversity. The collection of learning and re-learning activities will help practitioners to promote the development of these components in their day-to-day educational practice.

Geoethics for the Future Silvia Peppoloni, Giuseppe Di Capua, 2024-07-13 *Geoethics for the Future: Facing Global Challenges* offers the latest points of view on highly topical issues in geosciences, including climate change, sustainable development, and energy transition, enabling readers to acquire multifaceted knowledge of topics of global relevance and highlighting the importance of the issues affecting geosciences in the 21st Century.
