*Trail Guide to U.S. Geography* Cindy Wiggers, 2007-08      *Mormons and Popular Culture* J. Michael Hunter, 2012-12-05

Many people are unaware of how influential Mormons have been on American popular culture. This book parts the curtain and looks behind the scenes at the little known but important influence Mormons have had on popular culture in the United States and beyond. *Mormons and Popular Culture: The Global Influence of an American Phenomenon* provides an unprecedented comprehensive treatment of Mormons and popular culture. Authored by a Mormon studies librarian and author of numerous writings regarding Mormon folklore culture and history, this book provides students, scholars, and interested readers with an introduction and wide-ranging overview of the topic that can serve as a key reference book on the topic. The work contains fascinating coverage on the most influential Mormon actors, musicians, fashion designers, writers, artists, media personalities, and athletes. Some topics such as the Mormon influence at Disney and how Mormon inventors have assisted in transforming American popular culture through the inventions of television, stereophonic sound, video games, and computer-generated animation represent largely unknown information. The broad overview of Mormons and American popular culture offered can be used as a launching pad for further investigation. Researchers will find the references within the book's well-documented chapters helpful.
