The *Eunuch Archive* is an online community of individuals with exceptional interest in castration and penectomy. Here we examine themes related to genital ablation in a sample of fictional stories posted by members of the *Eunuch Archive*. Similarities between the contents of these stories and members' demographic information were found, suggesting that these stories may reflect some of the members' life experiences or personal fears. Common themes in both stories and personal histories of voluntarily castrated men were homosexuality, childhood abuse, and threats of castration. We found that 83% of stories were explicitly sexual, which was defined as containing physical or mental sexual arousal; sexual acts such as masturbation, oral sex, or penetrative sex; or attainment of orgasm. Fifty-one percent of stories described forced castrations, 34% involved minors, and 24% described orgasms related to genital ablation. Writing these stories may be therapeutic for the authors, as some members have claimed that writing them has allowed them to work through their extreme castration ideations without acting on them. Clinicians should be aware that there are men who express profound interest in genital ablation and their interests and/or concerns should be taken seriously.

KEY WORDS: Castration, eunuch, *Eunuch Archive*, fiction, sexual

INTRODUCTION

The term *eunuch* refers to a man who has been castrated, either chemically or surgically. Cooper (1986) suggests that thoughts of castration are a part of many men's lives, whether through fear or fascination. The *Eunuch Archive* (EA, see <http://www.eunuch.org>) is an online community for individuals with an explicitly strong interest in castration, penectomy, and nullification (an EA term referring to the removal/destruction of both the penis and testicles). Castration is the destruction of the testicles or their complete removal (medically referred to as an orchiectomy), while penectomy refers to total or partial surgical removal of the penis. The EA contains four sections: a Chat room, Personals, Discussion Board and the Fiction Archive. The last holds stories written and posted by the members of the EA community. As of February 2015, there were 8,726 stories available on the Fiction Archive (8,101 stories in English and 625 stories in 9 other languages). Some stories date back to the site's creation in 1998. Despite the large size and long history of the EA, there has never been a thematic analysis of the posted stories or any effort to

correlate the content of these stories with the demographics of the membership of the EA.

There have been several studies though on the members of the EA community. While some members of the EA have, in fact, been voluntarily castrated or penectomized, the majority of people who post there have not, yet they nevertheless have an extreme interest in the topic (Roberts et al., 2008). There are, for example, regular announcements by EA members that they have finally achieved a desired castration. Although a few castrated individuals in the community may have Male-to-Female Gender Dysphoria, most sought emasculation without the desire to present as female (Vale et al., 2010).

Johnson, Brett, Roberts and Wassersug (2007) investigated the prevalence of Gender Dysphoria and Body Integrity Identity Disorder in individuals who frequent the Discussion Board. Through a survey hosted on the EA with nearly 3000 respondents, they found that, although not formally diagnosed, over a third of members met criteria for one of these disorders. In addition, Vale, Siemens, Johnson and Wassersug (2013) identified several risk factors for following through with extreme castration ideations. Some of these risk factors include
