Checklist & Study Guide

Lindbergh High School
2014-2015
K. Smith, Room 223

Overview

The following topics are reviewed from the physical science course. Lectures and in-class activities are designed so that students focus more on the application of the concepts and big ideas. For the first exam students are expected to demonstrate their knowledge in the following areas:

Big Ideas

The semester final assesses your ability to demonstrate your learning on the following big ideas:

1. Math & Measurement: **All measurements have a degree of uncertainty.**
2. Matter- Classification, Properties, and Changes: **Physical material in our universe is made of matter.**
3. The Structure of the Atom: **Atoms are the fundamental building blocks of matter.**

Learning Objectives & Outcomes

Math & Measurement	I CAN:	Assignments
All measurements have a degree of uncertainty – Measurements are not exact numbers	Determine the number of significant figures in a measurement	Significant Figures Practice
	Use the correct number of significant figures in reporting measurements and the results of calculations.	Pg. 95: # 56, 80, 63, 59, 74
	Use the appropriate SI units for length, mass, volume	Scientific Notation Practice I
	Know the following SI prefixes: K H D (Base) d c m μ , n	Extra Practice: Pg. 99 # 1, 2
	Analyze the accuracy and precision of data

Kirschner, 1935 **God's Perfect Plan** Mark Paul Bishop, 2011-06 While working in the ER one evening the nurse called to tell me that Pastor Steve would like to talk with me As I shared my thoughts with Pastor Steve the simplicity of his responses almost left me speechless It was from this life changing conversation that Dr Mark Paul Bishop began a life devoted to Christ exhausting his human potential in service to his fellow man God's Perfect Plan is Dr Mark's spiritual autobiography and details his faith journey as he wrestles with issues directly pointing to the deficiency of our lives a deficiency that he learned can only be filled through a relationship with Christ Readers will be inspired as they seek their own answers to questions regarding God's perfect plan in their own lives Woven into the fabric of God's perfect plan for you you will discover the role of our social institutions of the family church school community and government You will be further amazed by the manner in which God incubates His plan for your life through His divine guidance and protection See how this family physician despite skepticism and wavering faith demonstrates how God's purpose and plan is clear in our lives if we only look for it The practical application of Christianity is not a myth it really does work See for yourself as you discover God's perfect plan *Learning Science Through Computer Games and Simulations* National Research Council, Division of Behavioral and Social Sciences and Education, Board on Science Education, Committee on Science Learning: Computer Games, Simulations, and Education, 2011-05-12 At a time when scientific and technological competence is vital to the nation's future the weak performance of U S students in science reflects the uneven quality of current science education Although young children come to school with innate curiosity and intuitive ideas about the world around them science classes rarely tap this potential Many experts have called for a new approach to science education based on recent and ongoing research on teaching and learning In this approach simulations

and games could play a significant role by addressing many goals and mechanisms for learning science the motivation to learn science conceptual understanding science process skills understanding of the nature of science scientific discourse and argumentation and identification with science and science learning To explore this potential Learning Science Computer Games Simulations and Education reviews the available research on learning science through interaction with digital simulations and games It considers the potential of digital games and simulations to contribute to learning science in schools in informal out of school settings and everyday life The book also identifies the areas in which more research and research based development is needed to fully capitalize on this potential Learning Science will guide academic researchers developers publishers and entrepreneurs from the digital simulation and gaming community and education practitioners and policy makers toward the formation of research and development partnerships that will facilitate rich intellectual collaboration Industry government agencies and foundations will play a significant role through start up and ongoing support to ensure that digital games and simulations will not only excite and entertain but also motivate and educate
