

Food Security in India

Question 1: How is food security ensured in India?

Answer: Food security is ensured in a country when the three dimensions of food security are taken care of. The three dimensions are:

Availability of food – Presence of enough food for all the persons

Accessibility of food – Absence of barrier on access to food

Affordability of food – Capability of all persons to buy food of acceptable quality

Question 2: Which are the people more prone to food insecurity?

Answer: A large section of people suffer from food and nutrition insecurity in India. However, the worst affected groups are as follows:

- Landless and land-poor households, traditional artisans, providers of traditional services, petty self-employed workers and destitute including beggars (in the rural areas).
- People employed in ill-paid occupations and casual labourers engaged in seasonal activities (in the urban areas).
- People belonging to the backward sections of society, namely SCs, STs and OBCs.
- People belonging to economically-backward states with high incidence of poverty, tribal and remote areas and regions more prone to natural disasters.
- People affected by natural disasters who have to migrate to other areas in search of work.
- Large proportion of pregnant and nursing mothers, and children under the age of 5 years.

Question 3: Which states are more food insecure in India?

Answer: The economically-backward states with high incidence of poverty are more food insecure in India. The states of Uttar Pradesh (eastern and south-eastern parts), Bihar, Jharkhand, Orissa, West Bengal, Chhattisgarh, parts of Madhya Pradesh and Maharashtra account for the largest number of food insecure people in the country.

Question 4: Do you believe that green revolution has made India self-sufficient in food grains? How?

Answer: In the late 1960s, the Green Revolution introduced the Indian farmer to the cultivation of high-yielding varieties (HYVs) of seeds. The HYVs (coupled with chemical fertilisers and pesticides) led to a growth in the productivity of food grains (especially wheat and rice), thereby helping India attain self-sufficiency in food grains. Since the advent of the Green Revolution, the country has avoided famine even during adverse weather conditions.

Question 5: A section of people in India are still without food. Explain?

Answer: Despite large increase in food grain production we find people without food in
