**Network Support** John Zanzizzi, 2018-08-22 Whenever I talk to dentists about HIPAA their eyes become glassed over and I could tell there are 1 million other places they'd rather be at that point. If you own a dental practice you're probably paying for someone to maintain your computer network and you may have hired a consultant to deal with your HIPAA compliance. What if there was a way for you to have a trouble-free compliant computer network at a fraction of the cost that it would typically cost for each to be done individually? John started San Diego HIT to bring enterprise-level IT support with HIPAA compliance to dental practices. San Diego HIT uses processes, procedures, and tools developed just for dental networks to stop the dental IT support that also is HIPAA complaint from being more expensive.
