*Le nouveau Moyen Age* Nicolas Berdiaev, 1990-02      **Lives of Seventy of the Most Eminent Painters, Sculptors and Architects** Giorgio Vasari, 1897      *The Haskins Society Journal* 16 Diane Korngiebel, 2006 The Haskins Society presents papers from leading scholars on the political and social history of the Western European world through the Viking times via the Anglo Saxon kingdoms to the break up of the Carolingian state in the mid 13th century      *Storytelling in Sixteenth-Century France* Emily E. Thompson, 2022-01-14 Storytelling in Sixteenth Century France is an innovative interdisciplinary examination of parallels between the early modern era and the world in which we live today Readers are invited to look to the past to see how then as now people turned to storytelling to integrate and adapt to rapid social change to reinforce or restructure community to sell new ideas and to refashion the past This collection explores different modalities of storytelling in sixteenth century France and emphasizes shared techniques and themes rather than attempting to define narrow kinds of narrative categories Through studies of storytelling in tapestries stone and music as well as distinct genres of historical professional and literary writing addressing both erudite and more common readers the contributors to this collection evoke a society in transition wherein traditional techniques and materials were manipulated to express new realities Published by the University of Delaware Press Distributed worldwide by Rutgers University Press      **Jules Michelet** John Raymond Williams, 1987      *Music as Concept and Practice in the Late Middle Ages* Reinhard Strohm, Bonnie J. Blackburn, 2001 *Music as Concept and Practice in the Late Middle Ages* is an entirely new addition to the New Oxford History of Music series rather than a revision of the volume's predecessor published in 1960 It takes account not only of the developments in late medieval music scholarship during the latter decades of the twentieth century but also of the experience gained through significant changes in the performance practice of the late medieval repertory witnessed during this period All the chapters include areas of discussion whose coverage in the series hitherto has been either wholly lacking or at best marginal Muslim and Jewish musical traditions of the Middle Ages late medieval office chant medieval dance music musical instruments in society music in Central and Eastern Europe music theory of the fourteenth and fifteenth centuries music and early Renaissance humanism The first chapter and the last three present the conceptualization of music in speculative theory philosophy compositional and didactic practice and musical historiography Four chapters and part of the first illustrate important musical repertoires and genres as they were developed within diverse societies The eight authors all of them with a long standing interest in their respective subjects have created through their collaboration a blend of mature scholarship and original investigation The volume's novelty of approach and content is complemented by a firm anchorage in the specialist literature and documentary source material Today no single view of the Middle Ages can be acceptable to the musician or to the historian The present volume which addresses itself to both provides solid information on formerly marginal themes and advocates further exploration of the other Middle Ages      *Montaigne and the Lives of the Philosophers*

Alison Calhoun, 2014-12-18 In his *Essais* Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality. In fact, he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so. Understanding Montaigne's philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves. The focus of Montaigne and the Lives of the Philosophers is how Montaigne assembled the lives of the philosophers on the pages of his *Essais* in order to grapple with two fundamental aims of his project: first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self. Both of these objectives grew out of a dialogue with the structure and content in the life writing of Plutarch and Diogenes Laertius, authors whose books were bestsellers during the essayist's lifetime. *Papers of the American Society of Church History*, American Society of Church History, 1891. Includes annual reports. *Papers*, ed. by S.M. Jackson. American society of church history, 1891.

Jules Michelet Michèle Hannoosh, 2019-07-25 Jules Michelet, one of France's most influential historians and a founder of modern historical practice, was a passionate viewer and relentless interpreter of the visual arts. In this book, Michèle Hannoosh examines the crucial role that art writing played in Michelet's work and shows how it decisively influenced his theory of history and his view of the practice of the historian. The visual arts were at the very center of Michelet's conception of historiography. He filled his private notes, public lectures, and printed books with discussions of artworks, which for him embodied the character of particular historical moments. Michelet believed that painting, sculpture, architecture, and engraving bore witness to histories that frequently went untold; that they expressed key ideas standing behind events; and that they articulated concepts that would come to fruition only later. This groundbreaking reevaluation of Michelet's approach to history elucidates how writing about art provided a model for the historian's relation to and interpretation of the past, and thus for a new type of historiography, one that acknowledges and enacts the historian's own implication in the history he or she tells.

**Histoire de L'art: Moyen âge et temps modernes** Pierre Lavedan, 1944 *The Reception of Bodin*, 2013-09-12 In *The Reception of Bodin*, an international and interdisciplinary team of seventeen scholars considers one of the most remarkable figures in European intellectual history: the sixteenth-century jurist and philosopher Jean Bodin as a prismatic agent in the transmission of ideas. The subject is approached in the light of reception theory, coupled with critical evaluation of key texts as well as features of Bodin's own career. Bodin is treated as recipient of knowledge gleaned from multifarious sources and his readers as receivers responding diversely to his work in various contexts and from various standpoints. The volume provides searching insights both into Bodin's mental world and into processes that served to cross-fertilise European intellectual life from the Renaissance to the Enlightenment. Contributors include Ann Blair, Harald E. Braun, Glenn Burgess, Peter Burke, Vittor Ivo Comparato, Marie-Dominique Couziniet-Luc, Foisneau, Robert von Friedeburg, Mark Greengrass, Virginia Krause, Johannes Machielsen, Christian Martin, Sara Miglietti, Diego Quaglioni, Jonathan Sch z, Michaela

*Papers of the American Society of Church History*, 1891     ,     Must We Divide History Into Periods? Jacques Le Goff, 2015-09-08 We have long thought of the Renaissance as a luminous era that marked a decisive break with the past but the idea of the Renaissance as a distinct period arose only during the nineteenth century Though the view of the Middle Ages as a dark age of unreason has softened somewhat we still locate the advent of modern rationality in the Italian thought and culture of the fifteenth and sixteenth centuries Jacques Le Goff pleads for a strikingly different view In this his last book he argues persuasively that many of the innovations we associate with the Renaissance have medieval roots and that many of the most deplorable aspects of medieval society continued to flourish during the Renaissance We should instead view Western civilization as undergoing several renaissances following the fall of Rome over the course of a long Middle Ages that lasted until the mid eighteenth century While it is indeed necessary to divide history into periods Le Goff maintains the meaningful continuities of human development only become clear when historians adopt a long perspective Genuine revolutions the shifts that signal the end of one period and the beginning of the next are much rarer than we think
