

EGYPT

Early civilizations developed near rivers for:

- Irrigation
- Transportation
- Trade
- Food
- Water

Advantages of Rivers

- **downstream** = moving from sea to fresh
- known as the "Gifts of Life" - they provide water for the crops, animals and all others

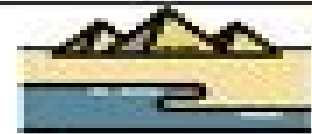

Fall - the mixture of soil and water makes the soil fertile and the crops grow better than elsewhere

Disadvantages of Rivers

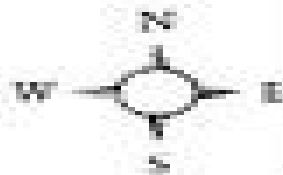

- **upstream** = the water is moving away from the sea
- known as the "Thieves of Life" - they take much of the water away from the crops and all others

The world's longest river

THE NILE RIVER

- Begins in East Africa
- Flows **north** and its delta is located in Northern Egypt
- **delta** - a triangular shaped area at the mouth of some rivers

- The Nile River starts in East Africa, flows **NOISE** and empties into the Mediterranean Sea
- This is **BACKWARDS** from other rivers
- Upper Egypt was **DOWN SOUTH** and Lower Egypt was **UP NORTH**

EGYPTIAN CALENDAR

The Egyptian calendar was created based off of the **predictable flood patterns** of the Nile River

Since they were able to predict the floods, farmers were able to grow a **SUPPLUS** of food and harvest before the flood so-come

HIEROGLYPHICS

hieroglyphics - a form of writing based on pictures

- Left written records of laws, crop production and population
- Egyptians used the papyrus plant to make paper

papyrus - a plant whose stems are used to make a kind of paper
The **"Rosetta Stone"** is found. It was used to decode hieroglyphics for the modern world
