Tools and Algorithms for the Construction

and Analysis of Systems Joost-Pieter Katoen, Perdita Stevens, 2003-07-31 ETAPS 2002 was the fth instance of the European

Joint Conferences on Theory and Practice of Software ETAPS is an annual federated conference that was established in

1998 by combining a number of existing and new conferences This year it comprised 5 conferences FOSSACS FASE ESOP CC

TACAS 13 satellite workshops ACL2 AGT CMCS COCV DCC INT LDTA SC SFEDL SLAP SPIN TPTS and VISS 8 invited

lectures not including those specific to the satellite events and several tutorials The events that comprise ETAPS address

various aspects of the system development process including specification design implementation analysis and improvement The

languages methodologies and tools which support these activities are all well within its scope Different blends of theory and

practice are represented with an inclination towards theory with a practical motivation on one hand and soundly based

practice on the other Many of the issues involved in software design apply to systems in general including hardware systems

and the emphasis on software is not intended to be exclusive

Distributed Processing

Burt H. Liebowitz, John Hargadine Carson, 1981 The purpose of this tutorial is to introduce distributed processing concepts

These concepts can be used to determine the relevance of a distributed processing approach to the reader's computing needs

Those considering the use of distributed systems will be confronted with managerial and technical issues but this tutorial

focuses on the technological issues The technological issues involve communications intercomputer coupling executive

software structures system architecture component selection and allocation of functions and data files to multiple processors
