Manuals Combined: U.S. Navy Journalist Basic, Journalist

Advanced And Journalist 3 & 2 Training Publications, Over 1 300 total pages To the young man or woman choosing a Navy career field whether for one enlistment or for 30 years the journalist rating offers endless avenues for an imaginative yet mature thinker. Many of the duties and responsibilities of the journalist rank among Americans favorite hobbies and pastimes such as writing, broadcasting, and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X Naval Correspondents. In 1948 under a major overhaul affecting almost every enlisted rating the journalist JO rating was established.

MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the JO 3 2 training manual TRAMAN.

In our democratic society, government depends on the consent of the governed. This important principle means that in the long run, the United States government does only what the people want it to do. Therefore we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade: personnel, money, materials, and the authority to carry out its mission.

As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics: the people at your ship or station, Navy people in general, and the people of the United States as a whole.

The Art of Dialogue Ineke de Feijter, 2007 Media and culture are deeply intertwined in contemporary society. Religions have problems relating to this media culture which is shaped by media processes and conditioned by digital media and interactive forms of communication. Media set the agenda and they profoundly challenge religions both with respect to their public communication and their very existence and public relevance. People increasingly use media for shaping their religious identity and their search with respect to questions of ultimate meaning. Barely any theological studies exist that reflect on religious policies and their subsequent praxis in the field of communication. The author analyzes Christian policy views and identifies the main problems and opportunities in relating to media culture.
