My belief about myself as a learner when I entered the class was a positive one. I attended a college prep school for high school and went to Oregon State University last year. I had plenty of practice with different learning techniques and found what works well for me. I believe I'm more of a visual learner than an auditory learner. It is easier to see a powerpoint and retain the knowledge then listen to a lecture and have the same retention. Entering the class I thought I liked working in groups more than working individually on projects, but that has since changed. I think it is more beneficial to me to work alone because I can get more done. When I entered the class I believed that reading the material closer to the due date was a better idea because I may not remember what I had read if I didn't.

What I have discovered about myself, as a learner over the term is vast. I learned that I can read the material way in advance and just briefly skim over the text and remember just about everything, were as I thought reading closer was more beneficial. I also learned that working in groups really isn't my specialty. I prefer working by myself because I'm able to get a lot more done and not have to worry about other people forgetting their part of the project. I don't like having to worry about other people not following through. I also learned that looking at the daily record in advanced helped me

Writing Theology Well Lucretia B. Yaghjian, 2006-11-24 In its creative integration of the disciplines of writing rhetoric and theology *Writing Theology Well* provides a standard text for theological educators engaged in the teaching and mentoring of writing across the theological curriculum As a theological rhetoric it will also encourage excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers preachers and communicators in a variety of ministerial and professional contexts *Handbook of Reflection and Reflective Inquiry* Nona Lyons, 2010-04-07 Philosophers have warned of the perils of a life spent without reflection but what constitutes reflective inquiry and why it is necessary in our lives can be an elusive concept Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire the *Handbook of Reflection and Reflective Inquiry* presents reflective thought in its most vital aspects not as a fanciful or nostalgic exercise but as a powerful means of seeing familiar events anew encouraging critical thinking and crucial insight teaching and learning In its opening pages two seasoned educators Maxine Greene and Lee Shulman discuss reflective inquiry as a form of active attention Thoreau's wide awakeness an act of consciousness and a process by which people can understand themselves their work particularly in the form of life projects and others Building on this foundation the *Handbook* analyzes through the work of 40 internationally oriented authors Definitional issues concerning reflection what it is and is not Worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education Reflection as promoted across professional educational domains including K 12 education teacher education occupational therapy and the law Methods of facilitating and scaffolding reflective engagement Current pedagogical and research practices in reflection Approaches to assessing reflective inquiry Educators across the professions as well as adult educators counselors and psychologists and curriculum developers concerned with adult learning will find the *Handbook of Reflection and Reflective Inquiry* an invaluable teaching tool for challenging times **Writing Theology Well 2nd Edition** Lucretia B. Yaghjian, 2015-09-24 A working guide for students conducting theological writing and research on theology and biblical studies courses this book integrates the disciplines of writing rhetoric and theology to provide a standard text for the teaching and mentoring of writing across the theological curriculum As a theological rhetoric it also encourages excellence in theological writing in the public domain by helping to equip students for their wider vocations as writers preachers and communicators in a variety of ministerial and professional contexts This 2nd Edition includes new chapters on *Writing Theology in a New Language* which explores the linguistic and cultural challenges of writing theology well in a non native language and *Writing and Learning Theology in an Electronic Age* addressed to distance learning students learning to write theology well from online courses and dealing with the technologies necessary to do so *The Course Reflection Project* Nicole Schonemann, Emily Metzgar, Andrew Libby, 2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation

are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices

The Humble Essay Roy K. Humble, 2023-04-01 The Humble Essay is so much more than a writing textbook It gives you tools tips and tricks that actually explain what a writer does It doesn't sugarcoat the process or dumb down the very real challenges that entering a college writing space requires This book is more like a friend It's the kind of friend that will coach you through a tough time and encourage you and it will make you laugh while you go through it It's the kind of friend who holds your hair back when you're sick of writing and gives you the courage to try again Roy K. Humble is the kind of writing teacher who understands the struggle of learning how to write like a college student and doesn't just tell you what you want to hear His lessons here are profound but in the sense that they are delivered by someone who wants you to feel included in the conversation about what good college writing should be He writes to students in language they can understand without becoming English majors and with just enough humor to keep them reading He writes for faculty moving step by step through the unadorned guiding principles of effective formal writing so that faculty have a great framework on which to build their classes Perhaps most importantly Humble understands that the price of a book matters to students so his books are affordable From every perspective Humble gets it The Humble Essay has students covered on these important topics Understanding the college essay as an idea Grasping the stages of the writing process Organizing the college essay around cohesive paragraphs Thinking for yourself as a college student Gathering and synthesizing sources and information Guiding readers through a thoughtful college essay

of caring and unprepared for the constant stream of emotional and psychological stressors that come with this profoundly important work. The unintended consequences of this omission include burnout, toxic work environments, and exodus from the profession. In this highly anticipated and particularly timely third edition of *Reflective Practice*, authors Sara Horton Deutsch and Gwen Sherwood invite readers to reflect, recalibrate, reimagine, rethink, and reframe the work of nursing care and their various roles and relationships within it. This book focuses first on the individual, then practice settings, and finally systems and communities, while providing supporting theoretical frameworks, practical applications, and opportunities for personal and shared reflection along the way. *Reflective Practice* guides nurses to emotional and psychological fulfillment in all aspects of care.

Arts-Based Research Methods in Writing Studies Kate Hanzalik, 2021-02-09 As the arts become an increasingly popular pedagogical tool in writing studies, *Arts Based Research Methods in Writing Studies* offers scholars and educators in the field ways to leverage the arts for their own scholarship through the practice of arts-based research (ABR). Tailored to the needs of writing studies scholars, this concise guide presents ways of exploring and addressing unresolved research questions from the past as well as new pressing questions that are emerging in light of increasingly fraught and complicated current contexts. It explores motives and methods for taking up ABR, sheds light on the processes of representing research, and the ethical imperative of methodological disclosure, and looks critically at the complexities of fully realizing ABR in writing studies while offering some pedagogical applications. Connecting theory to practice, this book also performs ABR through a co-created mixed-media text about the everyday and extraordinary stories woven into the fabric of new American artists' composing processes. *Arts Based Research Methods in Writing Studies* lends itself to insight that is at once personal for writing studies researchers, useful for research communities, and a catalyst for social change beyond institutional walls, as such it will be an important resource for scholars, educators, and graduate students in writing studies, and those interested in multimodal, multilingual, and translingual learning, equitable pedagogies, and administrative practices, online writing instruction, transnational literacies, research methods, community-based research, and disability studies in composition.
