

## Recipe Saver

I clip them from the magazine  
And from newspapers too,  
I gather them from neighbors, friends . . .  
And this is nothing new.  
I take them down from radio  
And file them all away,  
From TV cooking schools I find  
New dishes day by day.  
What fancy menus do I plan  
From all the recipes;  
O I'll bake this and I'll cook that . . .  
The family will I please.  
And yet somehow I find myself  
Repeating, so it seems,  
The same old meals I've done for years . . .  
The rest are in my dreams.

**Early Modern Women's Writing and the Future of Literary History** Lara Dodds, Michelle M. Dowd, 2025-02-03 Early Modern Women s Writing and the Future of Literary History demonstrates that a full accounting of early modern women s literary and creative activities is necessary to the future of literary studies writ large Despite benefiting from a rich body of scholarship and diverse critical practices early modern women s writing is still treated as an optional or secondary component of Renaissance literary studies as a whole In this book Dodds and Dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future Dodds and Dowd examine how perennial questions about authorship canon and literary value have historically influenced scholarship on early modern women s writing and its place within literary studies Early modern women s writing has been perceived as belated out of sync with dominant critical trends Dodds and Dowd show the belatedness of early modern women s writing to be a happy accident that positions women s writing as a resource for the renewal of literary history In both the classroom and in scholarship early modern women s writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies This book demonstrates that a feminist literary history that places women s writing at its center is essential to the future of English Renaissance literary studies There is in other words no history of English Renaissance literature without women writers

*Recipes for Thought* Wendy Wall, 2015-11-03 For a significant part of the early modern period England was the most active site of recipe publication in Europe and the only country in which recipes were explicitly addressed to housewives Recipes for Thought analyzes for the first time the full range of English manuscript and printed recipe collections produced over the course of two centuries Recipes reveal much more than the history of puddings and pies they expose the unexpectedly therapeutic literate and

experimental culture of the English kitchen Wendy Wall explores ways that recipe writing like poetry and artisanal culture wrestled with the physical and metaphysical puzzles at the center of both traditional humanistic and emerging scientific cultures Drawing on the works of Shakespeare Spenser Jonson and others to interpret a reputedly unlearned form of literature she demonstrates that people from across the social spectrum concocted poetic exercises of wit experimented with unusual and sometimes edible forms of literacy and tested theories of knowledge as they wrote about healing and baking Recipe exchange we discover invited early modern housewives to contemplate the complex components of being a Renaissance maker and thus to reflect on lofty concepts such as figuration natural philosophy national identity status mortality memory epistemology truth telling and matter itself Kitchen work recipes tell us engaged vital creative and intellectual labors

*Anatomical Forms* Whitney Sperrazza, 2025-06-10 Demonstrates how early modern women writers such as Margaret Cavendish and Hester Pulten wielded poetics as a tool for scientific work *Anatomical Forms* excavates the shared material practices of women's poetic work and anatomical study in early modern England Asserting that poetry is a dimensional technology Whitney Sperrazza demonstrates how women writers wielded poetics as a tool for scientific work in order to explore and challenge rapid developments in anatomy and physiology In the sixteenth and seventeenth centuries anatomists were actively exploring the best ways to represent bodies in texts to translate the work of the dissection room into the pages of books When we recognize Renaissance anatomy as fundamentally a book making project Sperrazza insists we find a complex and expansive history of anatomy in the pages of women's poetry Women poets have long been absent from histories of literature and science but by shifting our focus from content to form Sperrazza reveals complex engagements with questions on corpse preservation dissection obstetrics and gynecology and skin theory in the poetry of Margaret Cavendish Aemilia Lanyer Mary Wroth Mary Sidney Herbert and Hester Pulten Through close formal analysis and original research on early modern anatomy treatises *Anatomical Forms* weaves together critical conversations in poetics book history the history of science and women's writing Sperrazza challenges her readers to imagine science differently to understand that science might not always look like we expect it to look and in the process brings into focus a feminist history of poetic form centered on material practice
