remote sensing special issue the use of hyperspectral remote - Jun 15 2023

web advances in spaceborne hyperspectral remote sensing hrs and machine learning can help to support various remote sensing based applications including mineral exploration leveraging these advances the present study evaluates recently launched prisma spaceborne satellite images to map hydrothermally altered and weathered minerals

identification of minerals in hyperspectral imagery based on the - Apr 13 2023

web with the development of hyperspectral remote sensing the spectral resolution has become higher and higher so that a lot of mineral identification methods using hyperspectral imagery have been proposed gila yaron and eyal citation 2016

mineral exploration using hyperspectral data sciencedirect - Oct 07 2022

web jan 1 2020 application of hyperspectral remote sensing in mineral exploration potential uses of hyperspectral data in different geological applications are discussed in the literature hyperspectral data have been used to map surface alterations associated with different hydrothermal deposits

a review of spatial enhancement of hyperspectral remote sensing - Jul 24 2021

web feb 3 2023 remote sensing technology has undeniable importance in various industrial applications such as mineral exploration plant detection defect detection in aerospace and shipbuilding and optical gas imaging to name a few remote sensing technology has been continuously evolving offering a range of image modalities that can facilitate the

remote sensing free full text computational intelligence in - Aug 25 2021

web nov 12 2023 with the development of earth observation techniques vast amounts of remote sensing data with a high spectral spatial temporal resolution are captured all the time and remote sensing data processing and analysis have been successfully used in numerous fields including geography environmental monitoring land survey disaster

remote sensing for mineral exploration sciencedirect - Feb 28 2022

web sep 1 1999 remote sensing images are used for mineral exploration in two applications 1 map geology and the faults and fractures that localize ore deposits 2 recognize hydrothermally altered rocks by their spectral signatures landsat thematic mapper tm satellite images are widely used to interpret both structure and

hyperspectral remote sensing in lithological mapping mineral - Mar 12 2023

web jul 14 2021 in the last few decades different techniques have been developed by geologists to analyze hyperspectral data in order to quantitatively extract geological information from the
