Les Métamorphoses Du Monde Associatif:

Les métamorphoses du monde associatif Matthieu Hély, 2009 Fort d'un nombre de salariés équivalents aux effectifs de la fonction publique territoriale aux statuts multiples auxquels s'ajoutent 14 millions de bénévoles mais aussi des volontaires et des stagiaires le monde associatif est devenu un véritable marché du travail. Pourtant dans les représentations collectives ce monde demeure consacré comme celui du bénévolat au don de soi et l'engagement citoyen. Loin d'être un monde hors du monde il cristallise les grandes transformations qui caractérisent la société salariale d'une part il est le lieu de luttes de classement dans la définition des frontières entre secteur marchand et secteur non marchand. De l'autre il mêle des pratiques que la société reconnaît comme relevant de la sphère productive puisqu'elles sont intégrées au salariat des prestations réalisées dans le cadre du bénévolat et du volontariat. En ce sens il interroge les catégories traditionnelles du travail. Cet ouvrage montre ainsi que la catégorie des travailleurs associatifs constitue désormais une fraction du salariat que l'on ne peut plus ignorer. Car l'explosion du travail associatif ne peut être interprétée en dehors des mutations de la fonction publique tout simplement parce que ce travail incarne une forme alternative de service de l'intérêt général. De fait le salariat dans le secteur associatif représente une alternative de plus en plus sérieuse à la rarefaction des postes de fonctionnaires en particulier pour les jeunes sortants de formation qui en d'autres temps se seraient destinés à servir la collectivité en intégrant la fonction publique.

The French Nonprofit Sector Laura Nirello, Lionel Prouteau, 2018-08-20 This article deals with the literature on the French nonprofit sector. A preliminary part is devoted to presenting and discussing the characteristics that shape the approaches to this sector in France. We stress the strong influence of legal categories on the sector's definition and in this context the importance of the status inherited from the 1901 Act on contracts of association. This raises a problem for a more analytical approach to the sector because the diversity of the nonprofit organizations (NPOs) regulated under this Act risks being overshadowed. In this first part we also underline the primacy accorded in France to the concept of the social economy which has today become the social and solidarity economy (SSE) over that of the nonprofit sector. In the second part the article outlines some landmarks in the history of the French NPS. French NPOs were for many years objects of suspicion, arbitrariness and repression on the part of the public authorities and this persisted until the 1901 legislation on contracts of association was enacted. However this hostile context did not prevent the sector from having a richer existence than is sometimes admitted. This literature review also focuses on empirical studies of the sector placing a particular emphasis on the more recent ones. These French studies basically adopt two types of approach. The first is concerned essentially with the NPOs and focuses its attention on their economic importance whether measured in terms of financial resources, employment or less frequently added value. The second approach investigates the kinds of individual participation the sector engenders by examining the various forms it takes such as membership of NPOs or voluntary work. This review ends with the analysis of the challenges that NPS faces in a context characterized by the increasing constraints on public funding, changes in the

nature of such funding with a substitution of contracts for subsidies an increased competition among NPOs as well as between NPOs and for profit enterprises The article concludes that despite the advances in research on the French NPS some aspects like formal volunteering and the role of voluntary associations are still understudied while others like informal groups and informal volunteering are almost totally ignored *The Routledge Handbook of Global Perspectives on Homelessness, Law & Policy* Chris Bevan, 2024-06-06 This handbook provides a comprehensive global survey and assessment of the law and policy relating to homelessness prevention Homelessness is regarded internationally as one of the most pressing issues facing humanity and one of the greatest social challenges of our times This has been further amplified as a result of the Covid 19 pandemic Across the globe there is an enormous divergence in both experiences of and responses to homelessness from governments and state actors This handbook examines how different jurisdictions from across all five continents of the world have encountered framed and responded to homelessness Written by expert scholars and leaders in their field the book engages in a multidisciplinary and comparative analysis of homelessness as an issue of acute social concern Understandings of homelessness are geographically culturally and historically situated making analysis of each jurisdiction s approach by a national expert deeply insightful The collection examines legal and extra legal policy interventions targeted at reducing or preventing homelessness from across the globe Drawing on diverse perspectives differing cultures and welfare regimes it thus constitutes a timely evaluation of current approaches to homelessness internationally This book will appeal to students and scholars of homelessness sociology social policy anthropology and urban sociology as well as international and national policymakers *Encyclopedia of Professionalization* Didier Demaziere, Richard Wittorski, 2024-10-30 Professionalization has become a given in the worlds of work and education For a wide variety of professions public and private organizations and training and further education courses professionalization is an inescapable reality However it takes on diverse even contradictory meanings according to what it represents a managerial imperative imposed by public or managerial policies or a set of goals defined by an ideal of service or quality of work The purpose of Encyclopedia of Professionalization is to discuss the current challenges facing professionalization and by exploring major research traditions to clarify the meanings associated with this concept and the various phenomena it encompasses Three major notions of professionalization are examined the manufacturing of professions in pursuit of autonomy the rise of professionalisms embodying notions of a job well done and the construction of renewed professionalities at the very heart of work situations and training systems **The Bureaucratization of the World in the Neoliberal Era** B. Comparing Pathways of Desistance Ruwani Fernando,2024-03-12 This book presents a comparative study of desistance from crime by analysing and comparing the narratives of English and French desisters In doing so it uncovers how national and structural differences may lead to varying individual pathways out of crime Comparing Pathways of Desistance draws on the themes of family education onset of offending employment offending experiences and perspectives of the criminal justice system stories of desistance support networks and projections into the future In addition this book also explores topics that are less commonly looked at in desistance studies such as ambitions of entrepreneurship and leisure activities It examines the ways in which people make sense of their experiences of offending and desisting identifies differences and similarities between English and French desisters and reflects on how these differences and similarities inform us on the influences of national contexts on individual pathways of desistance An accessible and compelling read this book will appeal to students and scholars of criminology sociology desistance politics social policy and all those interested in the differences between English and French desisters **Active Ageing** Andrea Principi,Per H. Jensen,Giovanni

Lamura,2014 Active ageing has become a key phrase in the discourses about healthy aging processes and one important way that it has been achieved in Europe is through the engagement of older people in volunteer work Active Ageing offers a much needed compendium of research on volunteerism among seniors Ranging across eight European countries the contributors highlight how different levels in the structure of volunteering from local to national interact and how these interactions

either facilitate or hinder seniors inclusion in voluntary work They go on to offer policy suggestions for a more integrated strategy that can better support this unique group of volunteer workers

Transitions professionnelles dans le monde associatif et l'animation Eric Gallibour, Yves Raibaud, 2010-03-01 Les textes présentés dans cet ouvrage explorent les transitions entre bénévolat volontariat et salariat dans le monde associatif et l'animation Ils contribuent à clarifier les registres de l'engagement en s'interrogeant sur les parcours trajectoires et expériences qui en découlent Les travaux de recherche sur les parcours dans les milieux de la culture du sport ou des services à la personne sont mis contribution pour en clarifier les dimensions communes de bénévolat mais aussi exploitation associative par charité

Who Cleans the Park? John Krinsky, Maud Simonet, 2017-03-24 America's public parks are in a golden age Hundreds of millions of dollars both public and private fund urban jewels like Manhattan's Central Park Keeping the polish on landmark parks and in neighborhood playgrounds alike means that the trash must be picked up benches painted equipment tested and leaves raked Bringing this often invisible work into view however raises profound questions for citizens of cities In *Who Cleans the Park* John Krinsky and Maud Simonet explain that the work of maintaining parks has intersected with broader trends in welfare reform civic engagement criminal justice and the rise of public private partnerships Welfare to work trainees volunteers unionized city workers sometimes working outside their official job descriptions staff of nonprofit park conservancies and people sentenced to community service are just a few of the groups who routinely maintain parks With public services no longer being provided primarily by public workers Krinsky and Simonet argue the nature of public work must be reevaluated Based on four years of fieldwork in New York City *Who Cleans the Park* looks at the transformation of public parks from the ground up Beginning with studying changes in the workplace progressing through the public private partnerships that help maintain the parks and culminating in an investigation of a park's contribution to urban real estate values the book unearths a new urban order based on nonprofit partnerships and a rhetoric of responsible citizenship which at the same time promotes unpaid work reinforces workers domination at the workplace and increases the value of park side property *Who Cleans the Park* asks difficult questions about who benefits from public work ultimately forcing us to think anew about the way we govern ourselves with implications well beyond the five boroughs
