Situación actual de los procedimientos administrativos y presupuestarios del MAG, Manual de Relaciones Públicas e Institucionales Jordi Xifra, 2017-09-07. Este manual presenta un amplio y completo recorrido por el territorio de las relaciones públicas en general y de las relaciones institucionales en particular, siendo el primer manual sobre esta última materia que se publica en lengua española. Todas las organizaciones tienen la obligación vital de comunicarse con los públicos que conforman su entorno. Si no lo hacen, no existen. Entre estos públicos adquieren cada vez más importancia los poderes públicos. Ahora bien, no se trata solo de que su entorno las conozca a través de la publicidad, sino también de influir en él para que las entienda, para que comparta sus intereses, para que se adhiera a sus causas, para que las defienda si es necesario y para que, llegado el caso, las perdone. Es decir, las organizaciones deben tener una sólida reputación que una vez creada debe mantenerse. Las relaciones públicas e institucionales son las estrategias centrales de la gestión del riesgo reputacional. La obra abarca el proceso estratégico de dirección de relaciones públicas e institucionales, incidiendo en todas sus etapas: investigación, metas y objetivos, estrategia y evaluación y de manera especial en las técnicas que deben utilizarse en cada momento. Aunque se han eludido los debates técnicos en aras de una explicación clara y sistemática, el libro se inicia con la exposición de los fundamentos conceptuales históricos y técnicos de la disciplina.

Siempre que se publica un libro del ámbito educativo sobre la formación continua docente, advertimos que las temáticas son múltiples y variadas. Efectivamente, existe un sinnúmero de bibliografía que tratan cuestiones transversales a la formación de futuros profesores/as. La práctica docente en el aula, la didáctica específica de cada disciplina y la psicología del sujeto que aprende adquieren un lugar fundamental y prioritario en los diseños curriculares. Sin embargo, a medida que nos insertamos e interactuamos en el entramado mundo de las instituciones educativas y su entorno, descubrimos que aparecen otras prácticas que inexorablemente se desprenden de la propia organización y administración escolar. Sobre ellas no existen instancias de aprendizajes previos que permitan afrontarlas. La formación en práctica administrativa es una de estas carencias. Esto se constituye como un espacio que merece ser tratado de manera impostergable por la trascendencia y
