

SOLUTION MANUAL FOR ACCOUNTING INFORMATION SYSTEMS 10TH EDITION BY GELINAS

CHAPTER 2: Enterprise Systems.

Each end-of-chapter question in the Solutions Manual is tagged to correspond with AACSB, AICPA and CISA standards, allowing professors to more easily manage the task of reporting outcomes to these professional and accrediting bodies. Please see the corresponding spreadsheet file for the tagging information.

Discussion Questions

DQ 2-1 *After the core of an ERP system has been implemented, any of the modules may then be implemented separately. What is the implication of being able to implement an ERP system on a piece-by-piece basis?*

ANS. An advantage of being able to implement individual modules is that you can choose best-of-breed software. Also, a partial implementation can be done more quickly and the benefits received earlier. The remainder of the implementation can proceed as needed and as resources permit.

A disadvantage might be that you may not experience the benefits of full integration and may need to create links between modules from different vendors.

DQ 2-2 *The Nile Company is considering taking customers' orders on its Web site.*

- a. What information would Nile collect from the customer during this process?*
- b. What information would need to come from Nile's Web and back-end systems to complete the order?*
