The latest in efficient, consolidated storage array technology for entry-level customers with 4 Gb Fibre Channel and iSCSI solutions matched with the newest SAS and SATA drives.

The HP StorageWorks 2000 Modular Smart Array family of SAN devices features the very latest in functionality and technology at affordable prices. There are two host interfaces available—the Fibre Channel MSA2000fc and the iSCSI MSA2000i—allowing for the perfect solution to be selected depending on the user's individual needs. There is also the choice of enterprise-class SAS drives and archival-class SATA drives. Optional controller-based snapshot/clone functionality is supported by all models. Customers of the MSA2000 family are those needing to consolidate their storage including smaller companies with tight budgets and limited IT expertise, and larger companies with smaller departments or remote locations where an entry level Fibre Channel or iSCSI SAN is most appropriate.

MSA2000 family key features and benefits

- **Easy to service:** Supports customer replaceable hot plug components such as drives, controllers, fans and power supplies.
