Religious Education in a Plural, Secularised Society. A Paradigm Shift Leni Franken, Patrick Loobuyck, 2011 Many European societies are characterised by increasing forms of secularisation and religious diversity This results in a paradigm shift with regard to religious education For a long time the main aim of religious education was clearly to educate children in their own religious tradition Today the aims of religious education are much broader contributing to pupils general education Allgemeinbildung and preparing them for participation as a citizen in the future multicultural society As a result the following question arises in many countries how can teaching into religion be transformed into or complemented by learning about and learning from the study of religions This book brings several distinguished authors in the field of religious education together to reflect on

this paradigm shift The book is divided into two parts The first part is rather descriptive and gives an informative and up to date overview of the different discussions about religious education in several European countries The second part is a normative reflection on the question of how religious education should be organised in plural secularised societies This book is very important for the discussion about religious education Its comparative approach combined with the interdisciplinary dialogue between the different schools in the field of religious education make this book highly recommendable for everyone who is interested in the state of the art and the future of religious education in Europe Didier Pollefeyt full professor in theology and religious education at the Catholic University of Leuven **Livres de France** ,2005 Lectures contemporaines de Spinoza Claude Cohen-Boulakia,Pierre-François Moreau,Mireille Delbraccio,2012 Ensemble d'études portant sur la réception la relecture et la réinterprétation de Spinoza et du spinozisme par les philosophes contemporains Les auteurs montrent que les nouvelles approches de l'œuvre de Spinoza ont bénéficié de croisements féconds avec d'autres disciplines sciences sociales littérature économie droit politique etc **Le point** ,2003 Jeune Afrique L'intelligent ,2002 *Afrique magazine* ,1999 **L'éducation des enfants dans l'islam** 'Abd-Allâh Nâsih Oulwâne,2003
